(S) Insufficient number of reports to establish an estimate.

## UNITED STATES

### June Prices Received Index Up 0.2 Percent

The June Prices Received Index 2011 Base (Agricultural Production), at 134.8, increased 0.2 percent from May and 26 percent from June 2021. At 125.6, the Crop Production Index was up 2.2 percent from last month and 17 percent from the previous year. The Livestock Production Index, at 144.9, decreased 0.8 percent from May, but increased 35 percent from June last year. Producers received higher prices during June for oranges, corn, hogs, and soybeans but lower prices for strawberries, broilers, milk, and wheat. In addition to prices, the volume change of commodities marketed also influences the indexes. In June, there was increased monthly movement for wheat, hay, peaches, and corn and decreased marketing of oranges, milk, broilers, and strawberries.

### June Prices Paid Index Up 0.4 Percent

The June Prices Paid Index for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW), at 134.8, is up 0.4 percent from May 2022 and 13 percent from June 2021. Higher prices in June for feeder cattle, other services, gasoline, and diesel more than offset lower prices for feeder pigs, complete feeds, potash & phosphate, and mixed fertilizer.
