Issue 22-2010

Released November 15, 2010

Dear Nebraska Farmers, Ranchers and Agribusinesses:

The following narrative and tables are from recently published reports by USDA's Agricultural Statistics Board. These data are direct results of information provided by Nebraska producers and agribusinesses to the surveys conducted each month by this office.

Thank you for your response to these surveys.

Dean C. Groskurth
Director

Nebraska November 1 Crop Report

Based on November 1 conditions, Nebraska's 2010 corn crop is forecast at 1.48 billion bushels, down 2 percent from last month and 6 percent below last year's record high. Yield is forecast at 166 bushels per acre, down 4 bushels from last month and 12 bushels below last year but equal to the second highest of record.

Soybean production is forecast at a record high 270 million bushels, down 4 percent from last month but 4 percent above last year. Yield is forecast at 53 bushels per acre, down 2 bushels from last month and 1.5 bushels below the record high set in 2009.

Sorghum production is forecast at 6.83 million bushels, down 3 percent from last month, 48 percent below a year ago and the smallest production since 1953. Yield is forecast at 91 bushels per acre, down 3 bushels from the previous month and down 2 bushels from last year.

U.S. November 1 Crop Report

U.S. corn production is forecast at 12.5 billion bushels, down 1 percent from the October forecast and down 4 percent from last year's record production of 13.1 billion bushels. As of November 1, yields are expected to average 154.3 bushels per acre, down 1.5 bushels from the previous month and 10.4 bushels below last year's record of 164.7 bushels.

Soybean production is forecast at a record high 3.38 billion bushels, down 1 percent from the October forecast but up slightly from last year. Based on November 1 conditions, yields are expected to average 43.9 bushels per acre, down 0.5 bushel from last month and down 0.1 bushel from last year's record high yield.

Sorghum production is forecast at 338 million bushels, up fractionally from the October 1 forecast but 12 percent below last year. Yield is forecast is 72.5 bushels per acre, up 0.1 bushel from October and up 3.1 bushels from last year.
