^{1/} In pounds, retail weight unless otherwise stated. Consumption normally represents total supply minus exports, nonfood use, and ending stocks. Calendar-year data, except fresh citrus fruits, peanuts, tree nuts, and rice, which are on crop-year basis.

^{2/} Totals may not add due to rounding.

^{3/} Boneless, trimmed weight

^{4/} Excludes shipments to the U.S. territories

^{5/} Whole and part-skim milk cheese, plus natural equivalent of cheese and cheese products

^{6/} Includes Swiss, Brick, Muenster, Cream, Neufchatel, Blue, Gorgonzola, Edam, and Gouda

^{7/} Plain and flavored

^{8/} Plain and flavored, and buttermilk

^{9/} Heavy cream, light cream, half and half, eggnog, sour cream, and dip

^{10/} Formerly known as ice milk

^{11/} Includes condensed and evaporated milk and dry milk products.

^{12/} Farm weight

^{13/} Includes rye, corn, oats, and barley products, but excludes quantities used in alcoholic beverages, corn sweeteners, and fuel.

^{14/} Dry weight equivalent

FARM COMPUTER USAGE AND OWNERSHIP

In 2005, 78 percent of New England farms had computer access compared with 72 percent in 2003 and 2001. Nationally, 58 percent of farms had computer access in both 2005 and 2003, an 11 percent increase from 1999. Seventy-six percent of New England farms had Internet access in 2005, up 29 percentage points from two years

ago and up 36 percentage points from 2001. In New England, 76 percent of farms owned or leased computers in 2005, compared with only 46 percent in 1999. Fifty-two percent of New England farms were using computers for farm business in 2005, compared to 51 percent nationwide.

| Value of Certified Organically Produced Commodities | 3 | 28 | 21 | 13 | 33 | 41 | 12 |

The following footnotes and symbols are used throughout all tables with data from the 2002 Census of Agriculture.

- ^{1/} A farm was any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year. This definition has been used since the 1974 census.
- ^{2/} Data were based on a sample of farms.
- ^{3/} Total cropland includes land from which crops were harvested or hay was cut; land in orchards, Christmas trees, vineyards, nurseries, and greenhouses; cropland used only for pasture or grazing; land in cover crops, legumes, and soil-improvement grasses; land on which all crops failed; land in cultivated summer fallow; and idle cropland. Land in tapped maple trees was included in woodland not pastured.
- ^{4/} Harvested cropland includes land from which crops were harvested or hay was cut; land in orchards, Christmas trees, vineyards, nurseries and greenhouses. Land from which two or more crops were harvested was counted only once. Land in tapped maple trees was included in woodland not pastured.
- ^{5/} Net cash return was derived by subtracting total operating expenditures from the gross market value of agricultural products sold.
- ^{6/} Includes layer hens in molt and other layer hens and pullets 20 weeks old and older.
- ^{7/} Data shown for hay represent all hay crops including alfalfa, other tame, small grain, wild, grass silage, haylage and hay crops cut and fed green (green chop).
- ^{8/} The acres of vegetables harvested was the summation of the acres of individual vegetables harvested. All the individual vegetable crops were not shown.
- ^{9/} Orchard land includes land in bearing and non-bearing fruit trees, vineyards, and nut trees of all ages, including land on which all fruit crops failed. Respondents were instructed not to report abandoned plantings and plantings of fewer than 20 total fruit, nut trees, or grapevines.
- ^{10/} Nursery and greenhouse crops grown for sale was the summation of individual items including: nursery crops, floriculture crops (bedding, foliage and potted flowering plants; cut flowers and florist greens), sod harvested, vegetable and flower seeds, dry bulbs, dry corms, dry rhizomes, dry tubers, cut Christmas trees harvested, greenhouse vegetables, mushrooms and an "other" category.
- ^{11/} Rankings based on the sum of all six New England States. New England was then treated as one State and compared to the other 44 States in the Nation. Individual New England States were not listed which may in turn change the rank of States outside the region. For example, if two New England States were in the top 10 nationally, the New England ranking only takes one position and the 11th State then becomes number 10 in this table.
- D Data withheld to avoid disclosing information for individual farms
- N Data not available or not published
- S Withheld because estimate did not meet publication standards on the basis of either the response rate or a consistency review
- Z Less than half of the unit reported
- cwt Hundredweight
- sq ft Square feet

For corrections, additions or deletions, please call the
New England Agricultural Statistics Service in Concord, NH at 1-800-642-9571.

Need More Information?

www.nass.usda.gov

Where can I get more statistics or economic analysis?

National Agricultural Statistics Service (NASS) publications include weekly, monthly, quarterly, and annual estimates of production, stocks, inventories, disposition, utilization and prices of agricultural commodities, and other items. The Census of Agriculture is published every five years covering all commodities by state, county, and zip code. Other census reports include the Agricultural Atlas, Agricultural Economics and Land Ownership, Aquaculture, Census History, Congressional Tabulations, Farm and Ranch Irrigation, Horticulture Specialties, and Outlying Areas.

Economic Research Service (ERS) Situation and Outlook Reports and periodicals analyze the current situation and forecast market conditions. ERS monographs offer economic analysis in the area of trade, production, rural development, farm inputs, and other topics.

The World Agricultural Outlook Board (WAOB) issues regular forecasts of United States and world supply and demand prospects for major agricultural commodities.

How can I get National publications from NASS and ERS for all States?

- **For Free E-mail Subscriptions** send a message to usda-reports@usda.mannlib.cornell.edu and type lists in the message.
- **For a Free Catalog of Products and Services** call 1-800-999-6779.
- The NASS and ERS catalogs list all products and services available from each agency. The NASS catalog includes a calendar of publication dates for agricultural statistics reports throughout the year.

How can I get State publications from NASS field offices?

- **For Free E-mail Subscriptions** send a message to listserv@newsbox.usda.gov and in the body of the message (not the subject), type **subscribe usda-new-eng-all-reports** – other States are also available by typing lists in the body.
- **For Paper Subscriptions** use the order form in this book; see 'New England Reports' for details. For other States, call 1-800-727-9540 for the other 44 field offices in States outside New England.
