

HONEY

Honey production from Maine and Vermont producers with five or more colonies totaled 454,000 pounds in 2013, an increase of 21 percent from 2012. Yields from the 10,000 colonies producing honey in Maine and Vermont averaged 45.4 pounds in 2013, down from

47 pounds a year earlier. Total value of production for the two states totaled \$1,418,000, up 58 percent from the previous year. Nationwide, the value of 2013 honey production totaled \$3177 million, a 12 percent increase from the previous year.

¹ For producers with five or more honey producing colonies. Colonies which produced honey in more than one State were counted in each State.

² Honey producing colonies are the maximum number of colonies from which honey was taken during the year, including colonies which did not survive the entire year.

³ Stocks held by producers.

⁴ Average price per pound based on expanded sales.

⁵ Value of production is equal to production multiplied by average price per pound.

⁶ AK, CT, DE, MD, MA, NV, NH, OK, RI, and SC not published separately to avoid disclosing data for individual operations.

⁷ Due to rounding, total colonies multiplied by total yield may not exactly equal production.
