

Cranberry Highlights

New Jersey 2021 Cranberry Crop Forecast at 490 Thousand Barrels

New Jersey cranberry producers expect to harvest 490 thousand barrels in 2021, compared to 531 thousand barrels in 2020, according to Bruce Eklund, New Jersey State Statistician.

Massachusetts production is forecast at 2.10 million barrels, up 2% from the year before. Oregon producers expect to harvest 610 thousand barrels, up 1% from 2020. Wisconsin production is forecast at 4.70 million barrels, also up 1% from 2020 production. Total forecast for these four states is 7.90 million barrels compared to a realized 7.83 million barrels in 2020.
