RADISHES	Harvesting very good quality product in good volume.
SPINACH	Very good quality Spring planted product harvesting in good volume.
STRAWBERRIES	Finished up w/ the commercial volume of berries. Farm marketers in North Jersey started harvesting later and will still have excellent quality berries for another week or so.
SQUASH	Harvesting fair to increasing quantities of very good field grown zucchini and yellow squash.
SWISS CHARD	Harvesting very good quality product in fair to good volume.
TURNIPS	Starting to harvest light to increasing volume of very good quality product.

JERSEY FRESH FORECAST

BLUEBERRIES	Minor quantities of early varieties like Weymouth starting next Monday. The much more widely planted Duke variety starts a few days later with some volume available by the weekend. It will be two weeks before good volume is available.
PEACHES	Winter was longer & colder than normal, & coupled with a slowly warming Spring. The season will be a bit delayed & start in early to mid-July w/ early PF & Sentry varieties, w/ volume and freestone varieties starting a week later. White peaches start a week after that w/ volume late July.
