Weather summary provided by the Southern Regional Climate Center, <https://www.srcc.tamu.edu>.

## CURRENTLY AVAILABLE

	ARUGULA	Harvesting good volume of good quality product
	ASPARAGUS	Quality is excellent. Volume is at peak and starting to decline
	BABY SPINACH & ARUGULA	Harvesting a light to increasing volume of great quality products
	BASIL	Harvesting excellent quality in light volume, increasing weekly through the rest of summer
	BEETS	Harvesting good volume of excellent quality product
	BLUEBERRIES	Harvesting early variety in good volume with excellent quality. Expect volume to increase end of week
	BOK CHOY	Harvesting Bok Choy & Baby Bok in good volume - very clean, great quality product
	CABBAGE	Green & Savoy are in production light volume but increasing quickly very nice quality. Napa is harvesting in good volume beautiful size and quality very clean
	CILANTRO	Harvesting good volume and quality
	COLLARD GREENS	Harvesting with good volume and excellent quality
	CUCUMBERS	Beautiful color and quality in production with good volume that will be increasing each week
	DANDELIONS	Spring planted harvesting in good volume
	DILL	Harvesting good volume of excellent quality product
	ESCAROLE & ENDIVE	Great quality harvests of escarole and endive have started in increasing volumes
	KALE	Harvesting good volume of good quality
	KOHLRABI	Harvesting good volume of excellent quality, perfect size product
	LEEKs	Most growers are in a gap with very light volume of excellent quality
	LETTUCE	Boston, red leaf and green leaf harvesting in high volume, good quality. Romaine is harvesting in high volume, quality is excellent, size has been consistently large
	MINT	Harvesting good quality in good volume
	PARSLEY	New crop parsley is in production in increasing volume - quality is very nice with minimal defects
	RADISHES	Harvesting good quality product. Volume will pick up each week

SCALLIONS

Spring planted in full production with good volume / quality is very nice & clean

SPINACH

Harvesting good volume of great quality. Volumes will decrease with increasing temperatures

STRAWBERRIES

Good volume of excellent quality product, lower volumes as the temperatures increase going into June

SWISS CHARD

Harvesting good volume of good quality

TOMATOES

Greenhouse harvesting with good quality and volume. High tunnel production starting

TURNIPS

Harvesting light volume, should pick up in coming weeks

YELLOW SQUASH

Excellent quality and good color in production in decent volume, continuing to increase as weather continues to heat up

ZUCCHINI

Harvesting excellent quality zucchini in low volume. As weather continues to be favorable volume will increase. Golden squash is production now good quality beautiful color, low volume

**FORECAST**

EGGPLANT

Mid-June

PEPPERS

Early July

SWEET CORN

End of June or first week in July
