New Jersey 2020 Blueberries, Cranberries, and Peaches: Prices Strong, Peach Yields Down

TRENTON, NJ – New Jersey **blueberry** growers harvested 44.5 million utilized pounds from 8,400 acres. The value of utilized production was \$75.1 million for 2020. Average price was \$1.69 per pound, third Nationally.

Cranberry growers produced over 528 thousand utilized barrels from 3,000 acres. Value of utilized production was \$20.4 million. The average price was \$38.50 per barrel, second Nationally and a dime behind the Nation's price leader Wisconsin.

New Jersey **peach** growers harvested 7,600 utilized tons from 3,800 bearing acres. New Jersey ranked second nationally in price at \$2,740 per ton. Value of utilized production was over \$20.8 million. Peach yields, averaging 2 tons per acre, were down sharply due to adverse spring weather.

All reports are available electronically, at no cost, on the NASS web site at www.nass.usda.gov. Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit www.nass.usda.gov and click on "National" or "State" in upper right corner above "search" box to create an account and select the reports you would like to receive.
