Farm Fun in New Jersey
Free Educational Materials on the Internet

Note to Parents and Teachers: Our Agency offers a link on our Homepage geared toward children, called ‘NASS Kids...Agriculture and Math Fun!’ This site has agriculture-related word games, puzzles, jokes, quizzes, glossary, charts, and a coloring book. Also, you can find links to other agriculture-related sites, including Ag for Teachers!

Ag for Teachers

‘Ag for Teachers’ includes Agriculture Counts Lesson Plans, new for 2008. The lessons are structured for grades kindergarten through 12. The goal is to create fun lessons that incorporate agriculture into English, math, geography, science, and social studies. Featured are various lesson plans, classroom activities, and learning tools based on agriculture, math and computer science.

How can I get more copies of this activity book?
Due to budget limitations, multiple copies of this Activity Book are not available from the New Jersey Agricultural Statistics Service. The book is NOT copyrighted and you are welcome to make copies as needed. It is also available from our website at www.nass.usda.gov/nj where you can print selected pages or the entire book.
What do you think of when you hear the word “agriculture”? The image of crops growing in a field or a barnyard full of animals may come to mind. But even if you don’t live on a farm, agriculture is all around you. By playing the games and coloring the pictures in this book you will learn about crops and animals produced in New Jersey.
New Jersey dairy farms produced about 169 million pounds of milk in 2007. There were 190 farm operations with one or more milk cows in 2007. The value of milk produced by farmers totaled $32,928,000 in 2007.
Make a bar chart showing the acres of blueberries and cranberries harvested in New Jersey. Color the blueberry bar blue and the cranberry bar red. There are about 7,600 acres of blueberries and 3,100 acres of cranberries harvested each year.
Taking a Survey

One, two, three, four!

You are counting. A **Survey** is a count.

The New Jersey Agricultural Statistics Service counts livestock (cows, pigs, sheep, chickens), and crops (corn, oats, wheat, hay, soybeans, potatoes, fruits, vegetables).

We need counts of livestock and crops. A survey answers big questions.

---

Can you count the animals and crops on the map?

**Livestock**

How many cows do you see? 
How many horses do you see? 

**Crops**

How many ears of corn do you see? 
How many peaches do you see? 
How many peppers do you see? 
How many heads of wheat do you see?
Statisticians use computers every day in their work. Can you find the following words in the word find puzzle above? Circle each word that you are able to find. Words may be found forward and backward (horizontally, vertically, and diagonally).

Boys and Girls!

We hope you enjoyed playing the games and coloring the pictures in this booklet. We are grateful to our New Jersey farmers and their families for the food they provide and the wholesome milk and juices that we drink.

We are also grateful to them for completing our surveys throughout the year. This is how we gather our data about agriculture. A lot of people and agencies learn from this data, like - - -

- the farmers themselves
- magazines, newspapers and radio
- farm businesses
- farm associations
- banks and lenders
- schools and universities
- farm cooperatives
- government agencies
- legislatures

We hope you have become more aware of agriculture in New Jersey and learned how important it is to the people who work hard to produce our food.
