STATE OF NEW YORK
DEPARTMENT OF AGRICULTURE & MARKETS
10B AIRLINE DRIVE
ALBANY, NEW YORK 12235
www.agriculture.ny.gov

Andrew M. Cuomo
Governor

Darrel J. Aubertine
Commissioner

September 25, 2012

Dear Friends of Agriculture:

Agriculture is one of the key economic drivers in New York State. It enhances the lives of millions of people across New York State, supporting jobs and feeding families. It is our job at the state Department of Agriculture and Markets to ensure that this industry remains strong.

In total, 36,000 farms covered seven million acres across New York State in 2011. While the number of farms is down slightly from the previous year, 2011 was an encouraging year for New York State agriculture in many other ways. We have a yogurt industry that has spurred increased production in the dairy sector and the numbers from USDA reflect this increase. According to USDA, total milk production in New York during 2011 equaled 12.8 billion pounds, up one percent from the previous year.

Nationwide in 2011, New York ranked third in grape production and fourth in pear production. These are two of my favorite fruits and New York is a national leader in their development.

This is just a glimpse of what's inside. There's much more to be found in this annual report of agricultural statistics. I hope you find this information as valuable as we at the Department of Agriculture and Markets do.

Once again, thank you for your continued support in ensuring the success of New York's agricultural industry.

Sincerely,

A handwritten signature in blue ink that reads "Darrel J. Aubertine". The signature is fluid and cursive, with the first name "Darrel" being the most prominent.

Darrel J. Aubertine
Commissioner

Agriculture is important to New York State. The value of agricultural production was over \$5.26 billion in 2011. About 23% of the state's land area, or 7.00 million acres are used by the 36,000 farms to produce a very diverse array of food products. Here are some of the items in which New York ranks high nationally:

Livestock Products

Dairy and animal production in New York provided \$3.10 billion value of production to farmers in 2011.

Milk Production

Milk is New York's leading agricultural product and is produced all across the state. Milk sales account for one-half of total agricultural receipts. Production in 2011 was 12.8 billion pounds with a preliminary value of \$2.75 billion. New York is the nation's 4th leading producer and Wyoming is the State's leading county.

Meat Production

New York livestock producers marketed 269 million pounds of meat animals during 2011 bringing in \$274 million in cash receipts. Gross income from cattle and calves accounted for \$261 million while hogs and pigs returned \$21.4 million.

Poultry Production

The combined value of eggs and the value of sales for chickens was \$83.9 million for 2011. New York ranks 25th among all egg producing states in value of production.

Crop Production

Field crops, fruits and vegetables returned \$2.24 billion to New York farmers in 2011.

FRUITS

The value of New York's 2011 tree fruit and grape crops totaled \$351 million, up 9 percent from the 2010 value.

Apples

New York ranks 2nd nationally with production worth about \$251 million in 2011. Three general areas produce most of the apples: along the southern Lake Ontario shore, along the Hudson Valley, and along the upper Lake Champlain Valley. New York's leading varieties are McIntosh, Empire, Red Delicious and Golden Delicious.

Grapes

Wine and juice grape production place New York 3rd behind California and Washington. The crop value is estimated at \$67.9 million in 2011. Grapes utilized for juice accounted for 70 percent of the total grapes processed with the remaining 29 percent going for wine and 1 percent for fresh market. The four major producing areas are Lake Erie area, the Finger Lakes, the Hudson Valley and the eastern end of Long Island.

Tart Cherries

Production in New York ranks 5th in the Nation. Production in 2011 totaled 5.9 million pounds with a value of \$1.43 million.

Pears

Production ranked 4th in the nation with 12,100 tons and had a value of \$6.96 million.

Strawberries

Strawberries are the 3rd most valuable fruit in New York and places New York 8th in national production. Growers harvested 3.60 million pounds in 2011. The crop was worth \$8.46 million to growers.

VEGETABLES

The value of vegetable production totaled \$356 million in 2011. Fresh market vegetable production ranks 5th among all states. Leading crops in New York are cabbage, sweet corn and onions.

Cabbage

New York produced the second largest crop of cabbage in the Nation. Cabbage is principally grown south of Lake Ontario in Monroe, Genesee, Orleans, Ontario, and Niagara counties. New York cabbage is typically stored for sale as fresh during winter months. Value of the fresh market crop in 2011 totaled \$86.6 million.

Sweet Corn

Produced statewide, sweet corn had a value of \$53.6 million. Concentrations are found in the Lower Hudson Valley and around the Genesee Valley. Production of fresh market sweet corn crop ranked 5th in the nation.

Onions

An important crop with value of sales of \$33.1 million in 2011. Onions are grown in New York's muck soils in Orange, Orleans, Oswego, Madison and Wayne counties. The state ranked 6th in production for 2011.

Snap Beans

Grown in the Central and Western regions for fresh and processing. The 2011 fresh market and processing crop was valued at \$46.2 million. Fresh production accounted for 67 percent of the total value. New York ranks 4th in fresh market production.

Other Vegetables

Tomatoes: \$36.6 million, 6th nationally
Pumpkins: \$23.6 million, 1st nationally
Cucumbers: \$18.6 million, 3rd nationally
Squash: \$49.9 million, 2nd nationally
Cauliflower: \$2.40million, 3rd nationally

FIELD CROPS

New York produces a variety of field crops largely in support of its dairy industry. Corn, soybeans and wheat are most widely grown. New York ranks 3rd in corn silage production with a value of \$428 million. Grain corn ranked 19th in production and was worth \$540 million. Soybeans were valued at \$137 million. The state placed 12th in oat production, 32nd in wheat and 22nd for soybean production. Hay receipts put New York 23rd and was valued at \$313 million in 2011. Most hay is used on farms and its value is realized through sale of milk and livestock. Fall potatoes production reached a value of \$66.6 million in 2011 and made New York the 14th leading producer.

MAPLE SYRUP

At \$22.1 million, New York ranks 2nd behind Vermont in value. New York also ranks 2nd behind Vermont in 2012 production with 360,000 gallons.

FLORICULTURE CROPS

In 2011, New York floriculture products were valued at \$171 million. Bedding and garden plants top the list of commodities. The wholesale value of New York's floriculture output ranks 8th nationally at \$171 million. A variety of crops are produced in 25.3 million square feet of covered area and on 670 acres of open ground.

Economic Indicators

FARMS BY SALES CLASS

Of the estimated 36,000 farms in New York in 2011, only 6,300 or 18 percent of all farms had sales of \$100,000 or more, but they operated 3.60 million acres or 51 percent of all land in farms. New York farms with sales of less than \$10,000 totaled 18,900 or 53 percent of all farms.

Table 1. Number of Farms and Land in Farms, by Sales Class, New York, 2003-2011

Year	Economic Sales Class

FARMS AND FARMLAND UTILIZATION

The number of farms in New York (*places selling \$1,000 or more of agricultural products in a year*) totaled 36,000 in 2011, 300 fewer than in 2010. Land in farms totaled 7.00 million acres. Farmland accounts for 23 percent of the State's total land area.

Crops

Grain Corn

New York production is estimated at 82.5 million bushels, down 7 percent from last year. Area for harvest totaled 620,000 acres, up 5 percent from a year ago. Yields averaged 133 bushels per acre, down 17 bushels from last year's record high 150 bushels per acre.

Silage Corn

Corn cut for totaled 7.52 million tons, a decrease of 13 percent from last year. Area for harvest increased 3 percent to 470,000 acres. Yields are estimated at 16.0 tons per acre, down 3.0 tons per acre from last year.

Soybeans

The 2011 crop was estimated at 11.9 million bushels, 11 percent below last year's production. Area harvested, at 277,000 acres, was down slightly from a year ago. Yields averaged 43 bushels per acre, down 5 bushels an acre from last year's record high.

Wheat

Production totaled 5.21 million bushels, down 22 percent from the previous year. Harvested acreage, at 93,000 acres, was down 7 percent from 2010. Winter wheat yields averaged 56 bushels per acre, down 11 bushels from last year's record high.

Oats

Production, at a record low 1.70 million bushels, was down 56 percent from the previous year. Area harvested, at a record low 34,000 acres, was down 41 percent from last year. The average yield, at 50 bushels per acre, was down 17 bushels from last year.

Barley

Production of barley in New York totaled 414,000 bushels, down 25 percent from a year earlier and the second lowest on record. Acreage harvested for grain totaled a record tying low 9,000 acres, down 10 percent from a year ago. The average yield per acre, at 46 bushels, was down 9 bushels from last year.

All Dry Hay

Production was 2.72 million tons, up 13 percent from last year's 2.42 million tons. Acreage harvested for dry hay during 2011 decreased 3 percent to 1.34 million acres. Yield, at 2.03 tons per acre, was 16 percent above a year ago.

Alfalfa Dry Hay

New York production of alfalfa dry hay was estimated at 840 thousand tons, down 5 percent from last year's crop of 882 thousand tons. Area harvested, at 350 thousand acres, decreased 17 percent from last year. Yields averaged 2.40 tons per acre, up 14 percent from last year.

Forage

Forage production is the sum of all dry hay and haylage/greenchop production after converting the haylage/greenchop to a dry equivalent basis. New York's acres harvested, at 1.84 million, decreased by 6 percent from last year. The average yield, at 2.57 tons per acre was up from the previous year's 2.44 tons. Production at 4.76 million tons was down slightly from a year ago.

Potatoes

Production totaled a record low 4.05 million hundredweight (cwt.), down 21 percent from the 5.12 million cwt. produced in 2010. Harvested acreage totaled 16,200 acres, up 200 acres from last year's record low. Yields averaged 250 cwt. per acre, down 70 cwt. from last year.

Dry Beans

Production totaled a record low 165,000 cwt., down 41 percent from 2010. Acres harvested totaled a record low 11,800 acres, down 21 percent from a year earlier. The average yield, at 1,400 pounds per acre, was down 490 pounds from last year.

* May of following year.

VEGETABLES

The value of all New York vegetable production in 2011 totaled \$356 million. New York remained fifth in the nation for the value of principal fresh market vegetables.

The value of the Empire State's principal fresh market vegetables totaled \$329 million this year. Fresh market production in 2011 was estimated at 11.3 million hundredweight (cwt.). Planted acreage decreased from 69,890 acres in 2010 to 66,080 acres in 2011.

Processing vegetables were valued at \$27.0 million in 2011 and production totaled 113 thousand tons.

Onions

New York onion yields averaged 305 cwt. per acre, down from 315 cwt last year. Year 2011 production is estimated at 1.89 million cwt., down from 2010's 3.09 million cwt. Value is down 38 percent to a total of \$33.1 million.

Cabbage

New York's fresh market cabbage production for 2011, estimated at 4.71 million cwt., is up from 2010's production of 4.47 million cwt. Price per cwt. was \$20.00, \$1.20 less than last year. New York ranked second in the nation for fresh market cabbage production in 2011.

Pumpkins

Pumpkins showed a value of \$23.6 million, first in the nation. There were 6,300 acres harvested for a production of 693,000 cwt. Value of production in 2011 decreased 33 percent from 2010.

Snap Beans

New York is ranked fourth in the nation on value of the 2011 New York fresh market snap bean crop, at \$31.0 million. Harvested acres decreased from 6,700 acres to 5,300 acres. Yield decreased from 70 cwt per acre to 61 cwt per acre. Total production was 323,000 cwt., down 31 percent from last year due to lower yields and fewer harvested acres.

Sweet Corn

Fresh market sweet corn acreage was down in 2011. A total of 19,600 acres were harvested, a 14 percent decrease from last year. Yields decreased from 120 cwt. per acre in 2010 to 95 cwt. per acre in 2011. Total value was at \$53.6 million, down 25 percent from last year.

FRUIT

The value of New York's 2011 tree fruit and grape production totaled \$351 million, up 9 percent from the 2010 value. The value of utilized production was above the previous year for apples, tart cherries, peaches, pears, and strawberries.

Apples

The 2011 crop in New York was down 4 percent to 1.22 billion pounds. This year's value of utilized apple production, based on packinghouse door equivalent returns, totaled \$251 million. New York ranks second in apple production behind Washington.

Grapes

Production in New York increased 7 percent from 2010 to 188,000 tons. Fresh grapes totaled 3,000 tons while 185,000 tons were crushed by wineries and processors. Grapes utilized for juice accounted for 71 percent of the total grapes processed with the remaining 29 percent going for wine.

The value of the 2011 grape crop is estimated at \$67.9 million, 1 percent below the 2010 crop value. New York ranked third in grape production behind California and Washington.

Tart Cherries

New York's tart cherry crop is estimated at 5.9 million pounds, down 24 percent from the 2010 crop of 7.8 million pounds. The value of utilized production is estimated at \$1.43 million.

Sweet Cherries

New York sweet cherry production, at 700 tons, is down 30 percent from the 1,000 tons produced in 2010. The 2011 crop is valued at \$2.11 million compared to \$2.26 million a year ago.

Peaches

Peach production for the Empire State is placed at 6,800 tons, up 15 percent from the 2010 level. The value of the 2011 crop, at \$8.35 million, is up 19 percent from 2010.

Pears

Production of pears in New York is estimated at 12,100 tons, up 46 percent from the 2010 output of 8,300 tons. The 2011 crop is valued at \$6.96 million, up 44 percent from 2010. New York ranks fourth nationally in pear production.

Strawberries

Production in New York was up 3 percent from 2010 to 3.60 million pounds. The value of utilized production is estimated at \$8.50 million, up 23 percent from the \$6.90 million in 2010. New York ranks eighth in strawberry production.

Blueberries

Production of blueberries for the Empire State was at 1.90 million pounds. The 2011 crop is valued at \$3.96 million, a decrease from \$4.52 million in 2010.

FLORICULTURE

New York floriculture production ranked eighth in the nation for total commercial sales in 2011. The overall value of commercial sales for operations with more than \$10,000 in sales increased slightly to \$171 million. Bedding and garden plants continued to be the highest component of the total value of sales at \$103 million. Potted flowering plants were second with a value of sales of \$24.2 million, up 16 percent from previous year. Propagative materials ranked third at \$22.1 million, an increase of 26 percent from 2010.

During 2011, there were 615 growers. The total covered area for the floriculture crop production was 25.3 million square feet, down slightly from the 25.7 million square feet in 2010. The total open ground area was 670 acres.

Nationally, the total wholesale value of floriculture crops grown by operations with \$100,000 or more of sales in the 15-State program is \$3.94 billion for 2011, down 3 percent from the revised 2010 total. These operations account for 96 percent of the total value of \$4.08 billion in floriculture crops, but comprise only 44 percent of all producers. The wholesale value of bedding and garden plants, at \$1.33 billion, is down 3 percent from the previous year. Potted flowering plants for indoor or patio uses are valued at \$640 million, down 1 percent from 2010. The value of 2011 foliage plant production, at \$613 million, is up 5 percent from the previous year. Value of cut flowers, at \$359 million, is down 4 percent, while cut cultivated greens, at \$72.0 million, is down 6 percent from 2010.

MAPLE

New York maple syrup 2012 production decreased 36 percent from 2011. Syrup production is estimated at 360,000 gallons, down from the 564,000 gallons produced in 2011. Only Vermont produced more syrup than New York.

The number of taps, 2.07 million, increased 3 percent from last year, which is the largest number of taps since 1950. Syrup produced per tap averaged 0.174 gallons, down from 0.280 gallons in 2011. The final value of the 2011 crop is \$22.1 million.

Medium syrup accounted for 34 percent of production, with 14 percent dark, and 52 percent light. The overwhelming majority of maple producers reported the 2012 season was too warm. The warm temperatures forced the budding of trees. Following the warm stretch, colder, freezing temperatures in April came about which aided in shortening the season.

MILK PRODUCTION

HIGHLIGHTS

Pasture conditions throughout most of New York were rated poor to good from May through September of 2011. Hot, dry weather deteriorated conditions as the summer progressed.

Total milk production in New York during 2011, at 12.8 billion pounds, was up 1 percent from 2010. The annual average number of milk cows, at 610,000 head, was down 1,000 from the previous year. Annual output per cow averaged 21,026 pounds, up 1 percent from 2010.

Cash receipts from the sale of New York milk during 2011 totaled \$2.74 billion, up 24 percent from the previous year. The \$21.40 per hundredweight received for all milk sold by New York farmers was up \$4.00, or 23 percent, from the \$17.40 received in 2010. Marketing totals include whole milk and producer-separated cream sold to plants and dealers as well as milk sold directly to consumers.

New York dairymen used 32 million pounds of milk on their farms during 2011, unchanged from the previous year. About 93.7 percent of the milk used on farms was fed back to calves. The value of all milk produced, including milk fed back to calves, totaled \$2.74 billion, up 24 percent from 2010.

DAIRY PRODUCTS

There were 108 plants producing one or more dairy products during 2011 in New York, 8 percent of the total plants in the nation. Cheese production, excluding cottage cheese, totaled 731 million pounds in 2011, down 1.6 percent from 2010. New York ranks fourth in cheese production excluding cottage cheese, behind Wisconsin, California, and Idaho respectively, accounting for 7 percent of national production.

^{1/} An operation is any place having one or more head of cattle on hand at any time during the year for 1999-2006. For 2007, an operation is any place having one or more head of cattle on hand December 31, 2007. Annual state level inventory by size group discontinued in 2008. Available from the Census of Agriculture every five years starting in 2007.

Italian cheese production of 366 million pounds, which accounted for 50 percent of New York's total cheese output, decreased 0.2 percent from 2010. New York ranks third in the nation in production of Italian cheese. New York continues to lead the nation in production of all three cottage cheese categories. Creamed cottage cheese production increased 11 percent from 2010, cottage cheese curd decreased 1 percent, and low-fat cottage cheese decreased 1 percent from the previous year. New York output accounted for 30 percent of all low-fat cottage cheese produced nationally in 2011.

Annual New York Cheese Production
(Excluding Cottage Cheese)

Livestock and Poultry

LIVESTOCK

New York livestock producers marketed 269 million pounds of meat animals during 2011, down 6 percent from the 2010 total of 285 million pounds. Cattle and calves marketed were down 11 percent from a year earlier. Hogs and pigs were 64 percent higher. Meat animal cash receipts, totaling \$273 million, were up 46 percent from 2010.

Gross income from livestock during 2011, which includes the sale of meat animals and the value of home consumption, totaled \$282 million, up 46 percent from a year earlier. Cattle and calves accounted for 92 percent of this total.

Gross income from cattle and calves during 2011 totaled \$261 million, up 42 percent from a year earlier.

Gross income from hogs and pigs during 2011 totaled \$21.4 million, up 120 percent from 2010.

Table 40. CATTLE & CALF OPERATIONS:
By Herd Size, New York, 1998-2007^{1/}

Year	Herd size

HONEY

Honey production from beekeepers with five or more hives in New York totaled 2.74 million pounds during 2011.

The 2011 production was extracted from 49,000 colonies, up from the 45,000 colonies in 2010. Honey yield per colony averaged 56 pounds. Honey stocks on hand across the State as of December 15, 2011 totaled 1.24 million pounds, an increase of 10 percent from the 1.12 million pounds a year earlier.

Prices received by beekeepers in New York averaged \$1.93 per pound for all methods of sale during 2011. Value of honey production for the State in 2011 totaled \$5.30 million, compared with \$5.65 million in 2010.

New York State COUNTIES BY DISTRICT

County Estimates

County estimates are published annually by the USDA's National Agricultural Statistics Service, New York Field Office for a number of crops, livestock, and farm land use categories. Acreage, yield, and production estimates are made for corn, soybeans, oats, wheat, and hay. Livestock estimates include January 1 inventory of cattle, beef cows, and milk cows on farms. District estimates are made for dry beans.

Several important sources of information provide the basis for these annual county estimates. Preliminary estimates of crops and livestock numbers are developed from a large scale survey at the end of each year in which about 9,000 farmers across the state are contacted.

County acreage information from the Farm Service Agency also receives consideration in preparing several crop estimates.

Revisions, if necessary, are made after considering data that become available after the original estimates are prepared. These include the Census of Agriculture collected every five years.

County estimates prepared by the USDA's National Agricultural Statistics Service, New York Field Office include allowances for farmers not sampled, non-respondents, and inaccessible. All county level estimates add to state level data shown elsewhere in this publication.

^{1/} 2007 Census of Agriculture is most recent data available.^{2/} Included in Other Counties.

INTERNET ACCESS

FREE INTERNET SUBSCRIPTIONS

USDA NASS's National and State reports, data, agricultural graphics, and Agency information are available **free** on the Internet. From USDA NASS's Home Page there are several areas that can be accessed for additional information. "Today's Reports" is one of the most popular areas because it contains the reports released for that day as well as the previous work day. The 2007 Census of Agriculture is also available. National reports are generally available within 5 minutes after the release time by accessing USDA NASS's home page at:

www.nass.usda.gov

Information spotlighting New York is available on USDA NASS's New York Field Office home page address at:

www.nass.usda.gov/ny

For free electronic subscriptions, use the following method for either USDA NASS National or State office reports:

A. For subscriptions to USDA NASS National reports:

1. Go to **www.nass.usda.gov**
2. On the right side of the page under **"Receive Reports by E-mail,"** click **"National."**
3. Next click **"Register"** to create an account.
4. Complete the registration page and click **"Submit Registration".**
5. You will receive an e-mail to verify your e-mail address. When you receive the e-mail, click on the link provided to activate your online subscription.
6. Now you are ready to customize your subscription! Return to www.nass.usda.gov and again click on **"National"** under **"Receive Reports by E-mail."**
7. Next enter your **e-mail address** and **password**, and then click **"Submit."**
8. Select the NASS reports you would like to receive via e-mail and click **"Sign-Off."**

B. For subscriptions to individual State Office reports, including New York:

1. Go to **www.nass.usda.gov**
2. On the right side of the page under **"Receive Reports by E-mail,"** click **"State."**
3. Next select the reports you wish to receive. To select more than one report, press and hold **"ctrl"** on your keyboard and click on the additional reports.
4. Enter name and e-mail address.
5. Then click **"Submit."**

QUICK STATS ON LINE DATA BASE

One of NASS's on line features is a data base called "Quick Stats." This data base is available free of charge to all users. It contains historic estimates for all major crop and livestock items. More new items are continually being added. This data is available both at the U.S., State and County level. Most of the data goes back as far as the data series has been in existence. There is a download feature that allows you to download the data to be used in your own data base or spreadsheet. In addition, the 2007 Ag Census is also available through this data base. This feature will allow you to access specific items from the 2007 Ag Census.

To access the NASS Quick Stats:

1. Log onto the following Internet web site: www.nass.usda.gov
2. At this location, click on "Quick Stats"
3. At this point you can select U.S. and State Data, State and County data or Census of Agriculture. Under the U.S. and State Data and State and County Data, there are two types of queries. The top queries will let you get all States and the U.S. or counties in all States. The bottom queries let you select a specific State or specific counties within a State. The different commodities available are in the drop down boxes.
4. Once you have made your selection, you can click the "Get Data" key and it will bring the data download options that are available. If you do not want to view the data on the screen, you can click on the "Get Data – Download Only" button and you will get the same options as above but the data will not be shown on the screen.

CONVERSION FACTORS

LINEAR MEASURE (LENGTH)

1 mile 5,280 feet or 1,760 yards or 320 rods or 8 furlongs
 1 furlong..... 40 rods or 660 feet or 1/8 of a mile
 1 rod 16 1/2 feet or 5.5 yards
 1 yard 3 feet
 1 foot..... 12 inches

CUBIC MEASURE (VOLUME)

1 cubic yard..... 27 cubic feet
 1 cubic foot 1,728 cubic inches
 1 cord (4' x 4' x 8') 128 cubic feet
 1 cord foot..... (4' x 4' x 1')= 16 cubic feet
 2.5 cu. ft. of ear corn..... 1 bushel
 1.24 cu. ft. of shelled corn 1 bushel

DRY MEASURES

1 bushel 4 pecks
 1 peck..... 8 quarts
 1 quart 2 pints

SQUARE MEASURE (AREA)

1 square mile (section) 640 acres or 259 hectares
 1 acre 160 square rods or 43,560 square feet or 10 square chains
 1 hectare..... 2.47 acres
 1 square furlong..... 10 acres
 1 square rod 30 1/4 square yards

LIQUID MEASURE

1 barrel..... 31 1/2 gallons
 1 gallon 4 quarts or 3.7853 liters
 1 quart 2 pints
 1 pint..... 6 fluid ounces

WEIGHT (ORDINARY COMMODITIES)

1 long ton 2,240 pounds
 1 short ton 2,000 pounds
 1 hundredweight (cwt.)..... 100 pounds
 1 pound (lb.) 16 ounces

COMMODITIES

Pounds/Bushel

FIELD CROPS

Wheat 60
 Soybeans 60
 Corn (shelled) 56
 High Moisture Corn 65
 Barley 48
 Grain Sorghum 56
 Dry Beans 60
 Rye Bushel 56
 Potatoes 60
 Oats 32

FRUIT

Apples 42
 Peaches 48
 Pears 48
