

February 5, 2007

NEW YORK: Snowfall during January was light while temperatures dropped into the 20's and 30's towards the end of the month after a warmer than normal beginning to the month. The western part of the state received some lake effect snow during January. Major activities: tending livestock, spreading manure, machinery repair and maintenance, grading and packing onions, apples, potatoes, and cabbage, maintaining facilities in winter, and attending winter meetings.
