Week ending November 12, 2017

Issued weekly on the internet, April - November
by the Northeastern Regional Field Office of NASS

nassrfooner@nass.usda.gov

Released November 13, 2017

New York Weekly Crop Weather – November 12th, 2017: New York had a fair week for field activities with an average of 3.5 days suitable for field work. Temperatures were reported with a high of 68° (F), a low of 8° (F), and a state average temperature of 36° (F). Weekly precipitation ranged from 0 to 2.61 inches. The ground is frozen in some areas which allowed for harvest of corn and soybeans. Fieldwork activities for the week were spreading manure, seeding, and harvesting.

Summary based on NOAA Regional Climate Centers (RCCs) data. DFN = departure from normal.

Precipitation (rain or melted snow/ice) in inches. Air temperature in degrees Fahrenheit. Climate normals used are for the 1981-2010 period.

Effective with this release, the weather data source has been changed. The basic format of the data tables has not changed, but the data content will be based on newer historical datasets used for average calculations and changes in methodology subroutines for missing data.

REPORTERS COMMENTS, By County

Reporters are from Extension Service (Ext), Natural Resources Conservation Service (NRCS), Farm Service Agency (FSA), Conservation District (CD), farmers, commodity specialists, or other knowledgeable individuals.

Cayuga County; Colleen Cargile, Cayuga County FSA:

Cold weather has set in, which has been beneficial with all the rain we had the other week. The ground has frozen which has allowed for harvest of corn and soybeans.

Genesee/ Niagara/ Orleans Counties; Nathan R Herendeen:

Last of silage harvest done. Corn grain harvest slowly when it dries off for a few hours. Most operators are going with track machines. Soil damage from wet harvest conditions. Yields good, most harvest has been on the best drained soils. Last of soy harvest being done piecemeal as weather permits. Wheat making good progress.

Livingston County; Dean R Pendergast:

Rain continues to delay the completion of soybean harvest and has limited corn harvest.

Ontario County; Joann Rogers, County Executive Director FSA:

Ontario County continued with fall harvest and tillage; reports of better than expected corn yields.

Oswego County; Ellen deMey:

A few days of cool, dry weather enable more acres to be harvested. Yields and test weights are lower than anticipated and many acres are still too wet to harvest. Cold weekend temperatures brought light snow to much of the county.

Schuyler/ Seneca Counties; Kathy Mastellar, CED, Seneca/Schuyler FSA:

Rain a few days. Heavy Frost Nov 7th...Snow & cold at the end of the week. Fields are wet which is making harvest difficult.

Suffolk County; Alice V Wise:

Long Island vineyard crews are bringing bird netting and working on equipment.
