June Milk Production Up 2.9 Percent in New York

Milk production in New York during June 2015 totaled 1.19 billion pounds, up 2.9 percent from last June 2014, according to Blair Smith, State Statistician of the USDA's National Agricultural Statistics Service, New York Field Office.

Production per cow averaged 1,930 pounds in June, 45 pounds more than June 2014.

The number of milk cows on farms in the State was 618 thousand head, 3,000 head more than June 2014, and unchanged from May 2015.

The average milk price received by New York farmers in May 2015, at \$17.60 per hundredweight, is up \$0.10 from April 2015 but down \$8.50 from May a year ago.

The complete Milk Production report and all other NASS reports are available online at www.nass.usda.gov.
