February Milk Production Up 8.3 Percent in New York

Milk production in New York during February 2016 totaled 1.14 billion pounds, up 8.3 percent from February 2015, according to Blair Smith, State Statistician of the USDA's National Agricultural Statistics Service, New York Field Office.

Production per cow averaged 1,845 pounds in February, 130 pounds more than February 2015.

The number of milk cows on farms in the State was 620 thousand head, 4,000 head more than February 2015, but unchanged from January 2016.

The average milk price received by New York farmers in January 2016, at \$17.00 per hundredweight, is down \$1.80 from December 2015 and down \$1.70 from January a year ago.

The complete Milk Production report and all other NASS reports are available online at www.nass.usda.gov.
