April Milk Production Up 5.3 Percent in New York

Milk production in New York during April 2016 totaled 1.22 billion pounds, up 5.3 percent from last April 2015, according to Blair Smith, State Statistician of the USDA's National Agricultural Statistics Service, New York Field Office.

Production per cow averaged 1,965 pounds in April, 90 pounds more than April 2015.

The number of milk cows on farms in the State was 620 thousand head, 3,000 head more than April 2015, but unchanged from March 2016.

The average milk price received by New York farmers in March 2016, at \$16.20 per hundredweight, is down \$0.50 from February 2016 and is down \$1.40 from March a year ago.

The complete Milk Production report and all other NASS reports are available online at www.nass.usda.gov.
