United States Summary

Corn Planted Acreage Down 3 Percent from 2016

Soybean Acreage Up 7 Percent

All Wheat Acreage Down 9 Percent

Corn planted area for all purposes in 2017 is estimated at 90.9 million acres, down 3 percent from last year. Compared with last year, planted acres are down or unchanged in 38 of the 48 estimating States. Area harvested for grain, at 83.5 million acres, is down 4 percent from last year.

Soybean planted area for 2017 is estimated at a record high 89.5 million acres, up 7 percent from last year. Compared with last year, planted acreage intentions are up or unchanged in 24 of the 31 estimating States.

All wheat planted area for 2017 is estimated at 45.7 million acres, down 9 percent from 2016. This represents the lowest all wheat planted area on record since records began in 1919. The 2017 winter wheat planted area, at 32.8 million acres, is down 9 percent from last year but up less than 1 percent from the previous estimate. Of this total, about 23.8 million acres are Hard Red Winter, 5.61 million acres are Soft Red Winter, and 3.42 million acres are White Winter. Area planted to other spring wheat for 2017 is estimated at 10.9 million acres, down 6 percent from 2016. Of this total, about 10.3 million acres are Hard Red Spring wheat. Durum planted area for 2017 is estimated at 1.92 million acres, down 20 percent from the previous year.

Oats: Area seeded to oats for the 2017 crop year is estimated at 2.54 million acres, down 10 percent from 2016. This represents the second lowest planted area on record for the United States. Record low planted acreage is estimated in Alabama, California, Iowa, Maine, North Carolina, Pennsylvania, South Carolina, Texas, Wisconsin, and Wyoming. Area for harvest, forecast at 880,000 acres, is down 10 percent from 2016.

Barley: Producers seeded 2.38 million acres of barley for the 2017 crop year, down 22 percent from the previous year. This represents the lowest seeded area on record since records began in 1926. Harvested area, forecast at 1.95 million acres, is down 24 percent from 2016. If realized, the harvested acreage for barley will be the lowest since 1879. Record low planted acreage is estimated in Oregon.

Winter wheat: The 2017 winter wheat planted area is estimated at 32.8 million acres, up less than 1 percent from the previous estimate but down 9 percent from last year. This represents the second lowest winter wheat planted area on record since records began in 1909. Of the total acreage, about 23.8 million acres are Hard Red Winter, 5.61 million acres are Soft Red Winter, and 3.42 million are White Winter. Record low planted acreages are estimated in Louisiana, Nebraska, New Jersey, and Ohio.

Area harvested for grain is forecast at 25.8 million acres, up 1 percent from the previous forecast but down 15 percent from last year. If realized, this will represent a record low for the United States. Harvested acres are down from last year across much of the Great Plains, the primary wheat producing area, due to the reduction in planted acreage. Record low harvested acreage is expected in Louisiana, New Jersey, Ohio, and Virginia.

Soybeans: The 2017 soybean planted area is estimated at a record high 89.5 million acres, up 7 percent from last year. Compared with last year, planted acreage is up or unchanged in 24 of the 31 major producing States. Increases of 500,000 acres or more are estimated in Iowa, Kansas, Minnesota, Nebraska, and North Dakota. Area for harvest, forecast at 88.7 million acres, is up 7 percent from 2016 and will be a record high, if realized.

Tobacco: United States all tobacco area for harvest in 2017 is expected to be 313,600 acres, down 2 percent from 2016. Flue-cured tobacco, at 205,500 acres, is 4 percent below 2016 and accounts for 66 percent of this year's total tobacco acreage. Total light air-cured tobacco type area, at 82,300 acres, is up 1 percent from 2016. The burley portion of light-air cured tobacco, at 80,500 acres, is up 1 percent from last year.

Fire-cured tobacco, at 17,900 acres, is up 7 percent from 2016. Dark air-cured tobacco, at 6,300 acres, is up 5 percent from last year. Cigar filler tobacco, at 1,600 acres, is unchanged from the previous year.

Fall potatoes: Growers planted an estimated 907,800 acres of fall potatoes, down 1 percent from 2016. Harvested area is forecast at 901,400 acres, slightly above 2016.

Some flooding and cool weather occurred earlier in the spring in Idaho, which caused delays in planting progress and forced farmers to work overtime in May to catch up. As of June 4, ninety-eight percent of the crop was planted with 65 percent emerged, behind the 5-year average of 100 percent planted and 67 percent emerged. Cool, wet weather also delayed planting progress in Washington where only 77 percent of the crop had emerged, behind the 5-year average of 94 percent.
