Fargo, ND – For the week ending September 25, 2016, temperatures ranged from two to six degrees above normal across a majority of the State, according to the USDA’s National Agricultural Statistics Service. Producers were able to make good progress harvesting crops during the beginning of the week when conditions were drier. However, harvest activities were stalled across much of North Dakota through the weekend due to rainfall. Livestock producers were busy weaning calves and hauling hay to winter feeding areas. There were 4.2 days suitable for fieldwork. Topsoil moisture supplies rated 2 percent very short, 11 short, 71 adequate, and 16 surplus. Subsoil moisture supplies rated 4 percent very short, 10 short, 71 adequate, and 14 surplus.

Field Crops Report: Durum wheat harvested was 92 percent, near 95 last year, but ahead of 87 for the five-year average.
