NORTH DAKOTA CROP VALUES

FARGO, ND, February 24, 2016 – The value of North Dakota’s 2015 **field and miscellaneous crops** is forecast at \$6.69 billion, according to the USDA’s National Agricultural Statistics Service. This is a 4 percent decrease from 2014.

The value of **soybean** production is expected to total \$1.56 billion, down 19 percent from the previous marketing year. North Dakota’s soybean price is projected to average \$8.40 per bushel, a decrease of \$1.09 from the last marketing year.

The value of **spring wheat** production is expected to total \$1.47 billion, down 7 percent from the previous marketing year. North Dakota’s spring wheat price is projected to average \$4.60 per bushel, a decrease of \$0.82 from the last marketing year.
