The US Department of Agriculture's (USDA) National Agricultural Statistics Service's (NASS) – Ohio Field Office is pleased to present the 2022-2023 edition of Ohio Agricultural Statistics Annual Bulletin. This publication, which is also available on our web site, is a compilation of the many statistical reports published over the past year that highlight Ohio's diverse agriculture sector.

The statistics in this bulletin showcase this diversity and are used on a regular basis to make informed decisions by producers, consultants, advisors, government officials, and others. The compilation of this bulletin is a product of the partnership between the Ohio Department of Agriculture and NASS. I would like to extend a special thanks to all those producers, agribusinesses, commodity groups, and countless others who have given their valuable time to provide the information that serve as a basis for these data. Their responses are through the Internet, mail, via telephone, and face-to-face interviews.

Special thanks also go to the National Association of State Department of Agriculture enumerators for their exceptional work in collecting and providing timely and accurate data. Without their commitment to Ohio agriculture, we would be unable to successfully provide these data.

The 2022 Census of Agriculture was mailed out in December 2022. We thank all Ohio operators and producers who completed the 2022 Census of Agriculture, and we look forward to releasing the Census data in 2024. Results will include information on farm numbers, acreage, crops, livestock, income, expenses, and demographics at the county, state, and national level. Census data are used by policy makers, universities, communities, and organizations throughout Ohio and the United States to plan for the future and compete for valuable resources. We thank Ohio's producers for their cooperation and providing the information which helps ensure the success of Ohio agriculture.

Good decisions can only be made with good information. Our agency continually strives to meet our mission of providing timely, accurate, and useful statistics in service to U.S. agriculture. Thanks again to all those who provided, collected, and analyzed the data in this publication. If you have any questions about these data or need any additional information, please visit our web site at www.nass.usda.gov and/or contact our office at (614) 728-2100. We look forward to serving you.

Sincerely,

Ben Torrance

The Ohio Agricultural Statistics 2022-2023 Annual Bulletin is a cooperative publication between the Ohio Department of Agriculture and the United States Department of Agriculture, National Agricultural Statistics Service, Ohio Field Office.

We are proud to jointly provide this publication, which helps quantify the immense value of Ohio's food and agriculture industry. The facts and information in this publication help our leaders understand agriculture's vast reach, which lead to making informed policy decisions to help us carry out our important missions of protecting consumers, the food supply, and our valued resources; educating the public; and supporting farmers and producers.

On behalf of the Ohio Department of Agriculture, thank you for all that you do to support agriculture and food production in the state.

Sincerely,

A handwritten signature in black ink that reads "Brian Baldrige".
