

Ohio Crop Weather

Harvest Wrapping Up

Favorable weather conditions allowed some fieldwork for most of the week, according to Cheryl Turner, Ohio State Statistician with the USDA's National Agricultural Statistics Service. There were 6.1 days available for fieldwork for the week ending November 20. Temperatures remained well above average until late in the week when cold temperatures swept into the state. Drought conditions extended north of the Ohio River, covering most of Adams County and some surrounding areas. Moisture levels of corn harvested during the week is 17 percent.

Soil Moisture: Week Ending 11/20/16

Item	Very short	Short	Adequate	Surplus
	<i>(percent)</i>	<i>(percent)</i>	<i>(percent)</i>	<i>(percent)</i>
Topsoil moisture	4	23	69	4
Subsoil moisture	8	21	67	4

Crop Progress : Week Ending 11/20/16

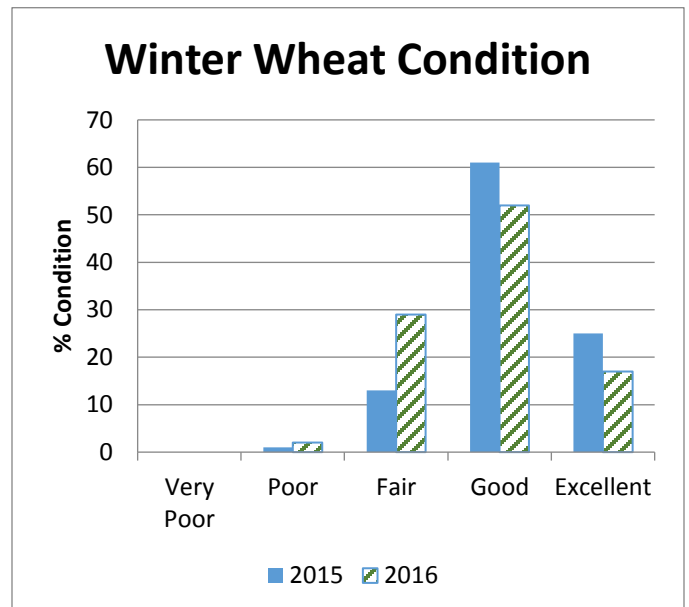

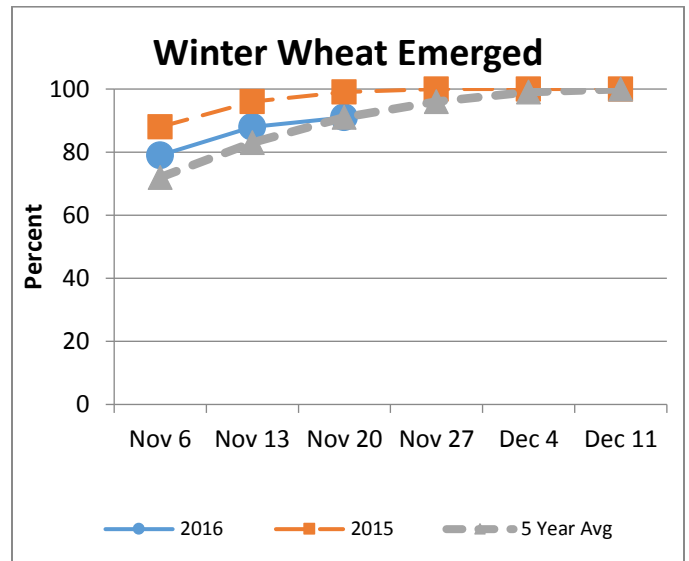

Crop/Activity	Percent Completed			
	This week	Last week	Last year	5 Year average
Days Suitable for Fieldwork ..	6.1	6.3	-	-

	<i>(percent)</i>	<i>(percent)</i>	<i>(percent)</i>	<i>(percent)</i>	<i>(percent)</i>
Winter Wheat.....		1	13	61	25

Special Note:

NASS will be conducting our End-of-Season surveys on crops and hogs during the first two weeks in December. As farmers wrap up the 2016 growing season, NASS will conduct a series of surveys to determine final State and county acreage, yield, and production for crops, as well as grain storage capacity and grain stocks on hand. We are also asking pork producers about this year's farrowings, pig crop and current inventory. County level acreage, yield and production estimates are used by the Risk Management Agency to administer its crop insurance programs. All participating farmers should respond. Your information is important and helps ensure accurate results.
