Ohio Crop Weather

May 21, 2018

Wet Weather Continues

Planting proceeded despite continued wet weather this week, according to Cheryl Turner, Ohio State Statistician with the USDA's National Agricultural Statistics Service. There were 3.5 days suitable for fieldwork in Ohio during the week ending May 20. The wet conditions were ideal for plant emergence. **Oat** planting is near completion and **corn** planting is not far behind. **Soybean** planting is only halfway complete. Some hay cutting was done this week along with other field activities, including spreading manure, applying herbicides, and tilling. Overall crops are in good condition.
