Weekly Summary for October 7-13

Issued October 15, 2019

Most of the state recorded less than an inch of precipitation last week, with exception of the East Central and Southeast districts, which recorded 2.26 inches and 1.95 inches, respectively. According to the October 8, US Drought Monitor Report, drought conditions were rated 24 percent abnormally dry to exceptional drought, down 4 points from the previous week. Additionally, 1 percent of the state was in the severe to exceptional drought category, unchanged from the previous week. Statewide, temperatures averaged in the mid 50's. Topsoil and subsoil moisture conditions were rated mostly adequate to short. There were 5.8 days suitable for fieldwork.

Small Grains: Winter wheat planted reached 69 percent, up 4 points from the previous year and up 1 point from normal. Winter wheat emerged reached 51 percent, up 4 points from the previous year and up 9 points from normal. Canola planted reached 6 percent, down 43 points from the previous year and down 68 points from normal. Rye planted reached 11 percent, down 38 points from the previous year and down 62 points from normal. Oats planted reached 1 percent, down 20 points from the previous year and down 25 points from normal.

Row Crops: Corn mature reached 98 percent, up 1 point from the previous year but unchanged from normal. Corn harvested reached 59 percent, down 1 point from the previous year and down 9 points from normal. Sorghum mature reached 81 percent, up 10 points from the previous year but down 4 points from normal. Sorghum harvested reached 26 percent, down 17 points from the previous year and down 23 points from normal. Soybeans dropping leaves reached 47 percent, down 22 points from the previous year and down 16 points from normal. Soybeans harvested reached 5 percent, down 23 points from the previous year and down 15 points from normal. Peanuts mature reached 66 percent, down 4 points from the previous year and down 4 points from normal. Peanuts harvested reached 24 percent, down 2 points from the previous year but up 4 points from normal. Cotton bolls opening reached 90 percent, up 7 points from the previous year and up 4 points from normal. Cotton harvested reached 12 percent, up 1 point from the previous year and up 4 points from normal.

Hay: The fourth cutting of alfalfa hay reached 86 percent, down 9 points from the previous year and down 4 points from normal. The second cutting of other hay reached 95 percent, unchanged from the previous year but up 4 points from normal. The third cutting of other hay reached 47 percent, down 15 points from the previous year but up 6 points from normal.

Pasture and Livestock: Pasture and range condition was rated at 87 percent good to fair. Livestock condition was rated at 88 percent good to fair.
