**Volume 42, Number 38**

**Weekly Summary for November 4–10**

**Issued November 12, 2019**

Oklahoma experienced freezing temperature last week. Rainfall totals averaged 1.06 inches across the state last week, with the Southeast district recording the highest totals at 2.23 inches. According to the November 5, US Drought Monitor Report, drought conditions were rated 24 percent abnormally dry to exceptional drought, down 1 point from the previous week. Additionally, 9 percent of the state was in the moderate drought to exceptional drought category, up 1 point from the previous week. Statewide, temperatures averaged in the high 40's. Topsoil and subsoil moisture conditions were rated mostly adequate to short. There were 5.2 days suitable for fieldwork.

**Small Grains:** Winter wheat planted reached 95 percent, up 11 points from the previous year and up 3 points from normal. Winter wheat emerged reached 86 percent, up 12 points from the previous year and up 1 point from normal. Canola planted reached 65 percent, down 18 points from the previous year and down 31 points from normal. Canola emerged reached 45 percent, down 5 points from the previous year and down 40 points from normal. Rye planted reached 85 percent, down 4 points from the previous year and down 12 points from normal. Rye emerged reached 52 percent, down 9 points from the previous year and down 35 points from normal. Oats planted reached 50 percent, down 4 points from the previous year and down 6 points from normal.

**Row Crops:** Corn harvested reached 95 percent, up 3 points from the previous year but unchanged from normal. Sorghum harvested reached 82 percent, up 8 points from the previous year and up 2 points from normal. Soybeans dropping leaves reached 85 percent, down 3 points from the previous year and down 8 points from normal. Soybeans harvested reached 56 percent, up 4 points from the previous year but down 10 points from normal. Peanuts harvested reached 77 percent, up 14 points from the previous year but unchanged from normal. Cotton harvested reached 50 percent, up 19 points from the previous year and up 6 points from normal.

**Hay:** The third cutting of other hay reached 71 percent, down 12 points from the previous year but up 14 points from normal. The fourth cutting of other hay reached 13 percent, down 12 points from the previous year and down 42 points from normal.

**Pasture and Livestock:** Pasture and range condition was rated at 84 percent fair to good. Livestock condition was rated at 89 percent good to fair.
