Volume 43, Number 6 Weekly Summary for March 16 – March 22

Issued March 23, 2020

Temperatures cooled off over the weekend in Oklahoma, with 7 of the districts reporting lows in the 20's on Saturday March 21st. Rainfall totals averaged 2.32 inches across the state last week, with the Southeast district recording the highest totals at 3.44 inches. According to the March 17, US Drought Monitor Report, drought conditions were rated 8 percent abnormally dry to severe drought, down 6 points from the previous week. Additionally, 4 percent of the state was in the moderate drought to severe drought category, down 1 point from previous week. Statewide, temperatures averaged in the low 60's. Topsoil and subsoil moisture conditions were rated mostly adequate to surplus. There were 1.8 days suitable for fieldwork.

Small Grains: Winter wheat jointing reached 27 percent, up 1 point from the previous year but down 8 points from normal. Rye jointing reached 15 percent, down 6 points from the previous year and down 9 points from normal. Oats jointing reached 4 percent, down 7 points from the previous year and down 7 points from normal.

Pasture and Livestock: Pasture and range condition was rated at 92 percent good to fair. Livestock condition was rated at 94 percent good to fair.

For Week Ending March 22, 2020
