**Volume 43, Number 16**

**Weekly Summary for May 25 – May 31**

**Issued June 1, 2020**

The weekend brought warmer temperatures across most of Oklahoma with 8 of the 9 districts reporting highs ranging from 85 to 94 degrees. Rainfall totals averaged 1.22 inches across Oklahoma last week, with the East Central district recording the highest totals at 3.25 inches. According to the May 26th, US Drought Monitor Report, drought conditions were rated 26 percent abnormally dry to severe drought, down 2 points from the previous week. Additionally, 14 percent of the state was in the moderate drought to severe drought category, down 3 points from the previous week. Topsoil and subsoil moisture conditions were rated mostly adequate to short. There were 4.6 days suitable for fieldwork.

**Small Grains:** Canola coloring reached 60 percent, down 10 points from the previous year and down 21 points from normal. Rye headed reached 95 percent, up 5 points from the previous year. Rye harvested reached 4 percent, down 8 points from the previous year but unchanged from normal. Oats jointing reached 85 percent, up 7 points from the previous year but unchanged from normal. Oats headed reached 50 percent, down 13 points from the previous year and down 12 points from normal.

**Row Crops:** Corn planted reached 83 percent, up 10 points from the previous year but down 3 points from normal. Corn emerged reached 65 percent, up 7 points from the previous year but down 11 points from normal. Sorghum planted reached 34 percent, up 12 points from the previous year but down 9 points from normal. Soybeans planted reached 68 percent, up 29 points from the previous year and up 28 points from normal. Soybeans emerged reached 30 percent, up 24 points from the previous year and up 11 points from normal. Peanuts planted reached 25 percent, down 14 points from the previous year and down 46 points from normal. Cotton planted reached 14 percent, down 15 points from the previous year and down 28 points from normal.

**Hay:** The first cutting of alfalfa hay reached 47 percent, down 4 points from the previous year and down 15 points from normal. The first cutting of other hay reached 45 percent, up 12 points from the previous year and up 5 points from normal.

**Pasture and Livestock:** Pasture and range condition was rated at 80 percent good to fair. Livestock condition was rated at 87 percent good to fair.
