Weekly Summary for June 8 – June 14

Issued June 15, 2020

High temperatures and very little moisture have led to an expansion in drought conditions across Oklahoma. Rainfall totals averaged 0.02 of an inch across Oklahoma last week, with the Panhandle district recording the highest totals at 0.12 of an inch. According to the June 9th, US Drought Monitor Report, drought conditions were rated 44 percent abnormally dry to severe drought, up 14 points from the previous week. Additionally, 28 percent of the state was in the moderate drought to extreme drought category, up 13 points from the previous week. Topsoil moisture condition was rated mostly short to adequate and subsoil moisture condition was rated mostly adequate to short. There were 6.8 days suitable for fieldwork.

Small Grains: Winter wheat harvested reached 40 percent, up 27 points from the previous year but down 3 points from normal. Canola coloring reached 80 percent, down 7 points from the previous year and down 16 points from normal. Canola harvested reached 38 percent, up 18 points from the previous year but down 19 points from normal. Rye harvested reached 36 percent, up 4 points from the previous year and up 8 points from normal. Oats headed reached 71 percent, down 14 points from the previous year and down 16 points from normal. Oats harvested reached 5 percent, up 4 points from the previous year but down 9 points from normal.

Row Crops: Corn planted reached 90 percent, up 6 points from the previous year but down 5 points from normal. Corn emerged reached 83 percent, up 12 points from the previous year but down 4 points from normal. Corn silk reached 5 percent, up 4 points from the previous year but unchanged from normal. Sorghum planted reached 52 percent, up 2 points from the previous year but down 12 points from normal. Soybeans planted reached 74 percent, up 26 points from the previous year and up 13 points from normal. Soybeans emerged reached 57 percent, up 44 points from the previous year and up 19 points from normal. Peanuts planted reached 71 percent, down 3 points from the previous year and down 18 points from normal. Peanuts pegging reached 4 percent, up 4 points from the previous year and up 3 points from normal. Cotton planted reached 60 percent, up 2 points from the previous year but down 19 points from normal. Cotton squaring reached 1 percent, up 1 point from the previous year but down 4 points from normal.

Hay: The first cutting of alfalfa hay reached 80 percent, up 8 points from the previous year but down 6 points from normal. The second cutting of alfalfa hay reached 33 percent, up 22 points from the previous year and up 13 points from normal. The first cutting of other hay reached 63 percent, up 11 points from the previous year and up 1 point from normal.

Pasture and Livestock: Pasture and range condition was rated at 74 percent good to fair. Livestock condition was rated at 88 percent good to fair.
