Volume 43, Number 20

Weekly Summary for June 22 – June 28

Issued June 29, 2020

Recent rains brought little relief to drought conditions across much of Oklahoma. Rainfall totals averaged 0.48 of an inch across Oklahoma last week, with the South Central district recording the highest totals at 1.03 inches. According to the June 23th, US Drought Monitor Report, drought conditions were rated 57 percent abnormally dry to severe drought, up 6 points from the previous week. Additionally, 35 percent of the state was in the moderate drought to extreme drought category, down 5 points from the previous week. Statewide, temperatures averaged in the high 70's. Topsoil moisture conditions was rated mostly short to adequate and subsoil moisture conditions was rated mostly adequate to short. There were 6.0 days suitable for fieldwork.

Small Grains: Winter wheat harvested reached 95 percent, up 31 points from the previous year and up 10 points from normal. Canola harvested reached 70 percent, up 9 points from the previous year but down 16 points from normal. Rye harvested reached 65 percent, down 4 points from the previous year and down 9 points from normal. Oats headed reached 85 percent, down 9 points from the previous year and down 9 points from normal. Oats harvested reached 28 percent, down 1 point from the previous year and down 22 points from normal.

Row Crops: Corn emerged reached 98 percent, up 13 points from the previous year and up 3 points from normal. Corn silk reached 16 percent, down 2 points from the previous year and down 9 points from normal. Sorghum planted reached 86 percent, up 8 points from the previous year but unchanged from normal. Sorghum headed reached 1 percent, down 7 points from the previous year and down 6 points from normal. Soybeans planted reached 79 percent, up 17 points from the previous year but unchanged from normal. Soybeans emerged reached 69 percent, up 37 points from the previous year and up 5 points from normal. Soybeans blooming reached 3 percent, up 3 points from the previous year and up 2 points from normal. Peanuts planted reached 85 percent, down 14 points from the previous year and down 14 points from normal. Peanuts pegging reached 21 percent, up 17 points from the previous year and up 8 points from normal. Cotton planted reached 95 percent, down 1 point from the previous year and down 2 points from normal. Cotton squaring reached 10 percent, down 13 points from the previous year and down 8 points from normal.

Hay: The first cutting of alfalfa hay reached 90 percent, down 1 point from the previous year and down 6 points from normal. The second cutting of alfalfa hay reached 54 percent, up 1 point from the previous year but down 5 points from normal. The first cutting of other hay reached 78 percent, up 2 points from the previous year but down 2 points from normal. The second cutting of other hay reached 1 percent, down 4 points from the previous year and down 10 points from normal.

Pasture and Livestock: Pasture and range condition was rated at 81 percent fair to good. Livestock condition was rated at 93 percent good to fair.
