**Volume 44, Number 20**

**Weekly Summary for June 21 – June 27**

**Issued June 28, 2021**

Rainfall totals in Oklahoma averaged 2.47 inches, with the Central district recording the highest total at 4.36 inches. According to the June 22<sup>nd</sup> US Drought Monitor Report, drought conditions were rated 24 percent abnormally dry to exceptional drought, up 9 points from the previous week. Additionally, 6 percent of the state was in the moderate drought to exceptional drought category, up 1 point from the previous week. Statewide, temperatures averaged in the high 70's. Topsoil moisture conditions were rated mostly adequate to short, while and subsoil moisture conditions were rated short to adequate. There were 6.2 days suitable for fieldwork.

**Small Grains:** Winter wheat harvested reached 80 percent, down 14 points from the previous year and down 5 points from normal. Canola harvested reached 70 percent, up 1 point from the previous year but down 11 points from normal. Rye harvested reached 60 percent, down 3 points from the previous year and down 15 points from normal. Oats headed reached 95 percent, up 11 points from the previous year and up 3 points from normal. Oats harvested reached 40 percent, up 13 points from the previous year but down 5 points from normal.

**Row Crops:** Corn emerged reached 95 percent, down 2 points from the previous year and down 1 point from normal. Corn silk reached 15 percent, unchanged from the previous year but down 7 points from normal. Sorghum planted reached 80 percent, down 5 points from the previous year and down 5 points from normal. Sorghum headed reached 1 percent, unchanged from the previous year but down 5 points from normal. Soybeans planted reached 65 percent, down 14 points from the previous year and down 14 points from normal. Soybeans emerged reached 42 percent, down 27 points from the previous year and down 22 points from normal. Peanuts planted reached 95 percent, up 11 points from the previous year but down 1 point from normal. Peanuts pegging reached 14 percent, down 5 points from the previous year but unchanged from normal. Cotton planted reached 92 percent, down 2 points from the previous year and down 4 points from normal. Cotton squaring reached 11 percent, up 2 points from the previous year but down 7 points from normal.

**Hay:** The first cutting of alfalfa hay reached 95 percent, up 5 points from the previous year and up 1 point from normal. The second cutting of alfalfa hay reached 49 percent, down 4 points from the previous year and down 10 points from normal. The first cutting of other hay reached 77 percent, unchanged from the previous year but down 3 points from normal.

**Pasture and Livestock:** Pasture and range condition was rated at 87 percent good to fair. Livestock condition was rated at 88 percent good to fair.
