**Volume 44, Number 21**

**Weekly Summary for June 28 – July 4**

**Issued July 6, 2021**

Rainfall totals in Oklahoma averaged 2.11 inches, with the Central district recording the highest total at 3.12 inches. According to the June 29<sup>th</sup> US Drought Monitor Report, drought conditions were rated 16 percent abnormally dry to exceptional drought, down 8 points from the previous week. Additionally, 2 percent of the state was in the moderate drought to exceptional drought category, down 4 points from the previous week. Statewide, temperatures averaged in the mid 70's. Topsoil moisture conditions and subsoil moisture condition were rated mostly adequate to surplus. There were 1.8 days suitable for fieldwork.

**Small Grains:** Winter wheat harvested reached 90 percent, down 9 points from the previous year and down 5 points from normal. Canola harvested reached 78 percent, up 4 points from the previous year but down 10 points from normal. Rye harvested reached 68 percent, down 1 point from the previous year and down 18 points from normal. Oats harvested reached 48 percent, up 20 points from the previous year but down 7 points from normal.

**Row Crops:** Corn silk reached 24 percent, down 4 points from the previous year and down 11 points from normal. Sorghum planted reached 93 percent, down 1 point from the previous year but unchanged from normal. Sorghum headed reached 4 percent, unchanged from the previous year but down 7 points from normal. Soybeans planted reached 69 percent, down 14 points from the previous year and down 17 points from normal. Soybeans emerged reached 50 percent, down 21 points from the previous year and down 22 points from normal. Peanuts pegging reached 22 percent, unchanged from the previous year but down 5 points from normal. Cotton planted reached 95 percent, unchanged from the previous year but down 4 points from normal. Cotton squaring reached 19 percent, unchanged from the previous year but down 9 points from normal.

**Hay:** The second cutting of alfalfa hay reached 63 percent, down 5 points from the previous year and down 9 points from normal. The first cutting of other hay reached 86 percent, up 4 points from the previous year but unchanged from normal. The second cutting of other hay reached 6 percent, down 5 points from the previous year and down 9 points from normal.

**Pasture and Livestock:** Pasture and range condition was rated at 82 percent good to fair. Livestock condition was rated at 85 percent good to fair.
