Weekly Summary for October 24 – October 30

Issued October 31, 2022

Rainfall totals in Oklahoma averaged 2.19 inches. According to the October 25th US Drought Monitor Report, drought conditions were rated 100 percent abnormally dry to exceptional drought and moderate drought to exceptional drought categories, unchanged from the previous week. Statewide, temperatures averaged in the upper 50's. Topsoil and subsoil moisture conditions were rated mostly very short. There were 4.7 days suitable for fieldwork.

Small Grains: In the Central district, reporters indicated that winter wheat is continuing to be planted with very little reported as emerged. Statewide, winter wheat planted reached 84 percent, up 1 point from the previous year but down 1 point from normal. Winter wheat emerged reached 62 percent, down 4 points from the previous year and down 9 points from normal. Canola planted reached 75 percent, down 1 point from the previous year but up 2 points from normal. Canola emerged reached 21 percent. Rye planted reached 67 percent, down 9 points from the previous year and down 16 points from normal. Rye emerged reached 24 percent. Oats planted reached 45 percent, up 6 points from the previous year and up 3 points from normal.

Row Crops: Corn harvested reached 92 percent, up 1 point from the previous year and up 5 points from normal. Sorghum harvested reached 64 percent, up 1 point from the previous year and up 2 points from normal. Soybeans dropping leaves reached 90 percent, up 2 points from the previous year and up 6 points from normal. In the South Central district, reporters indicated that all soybeans will be harvested soon. Statewide, soybeans harvested reached 50 percent, up 3 points from the previous year and up 8 points from normal. Peanuts mature reached 95 percent, up 3 points from the previous year and up 3 points from normal. Peanuts harvested reached 59 percent, up 16 points from the previous year and up 5 points from normal. Cotton harvested reached 29 percent, down 1 point from the previous year but unchanged from normal.

Hay: The fifth cutting of alfalfa hay reached 50 percent, up 9 points from the previous year and up 22 points from normal. The fourth cutting of other hay reached 45 percent, up 31 points from the previous year and up 33 points from normal.

Pasture and Livestock: Pasture and range condition was rated at 80 percent very poor to poor. Livestock condition was rated at 73 percent fair to poor.
