Volume 45, Number 39 Weekly Summary for October 31 – November 6 Issued November 7, 2022

Rainfall totals in Oklahoma averaged 0.78 of an inch. According to the November 1st US Drought Monitor Report, drought conditions were rated 100 percent abnormally dry to exceptional drought and moderate drought to exceptional drought categories, unchanged from the previous week. Statewide, temperatures averaged in the upper 50's. Topsoil moisture conditions were rated mostly short to very short, while subsoil moisture conditions were rated very short to short. There were 4.8 days suitable for fieldwork.

Small Grains: Winter wheat planted reached 90 percent, up 2 points from the previous year and up 1 point from normal. In the Central district, reporters indicated that dusted in wheat has started emerging. Statewide, winter wheat emerged reached 75 percent, up 4 points from the previous year but down 2 points from normal. Canola planted reached 85 percent, up 1 point from the previous year and up 5 points from normal. Canola emerged reached 48 percent, up 13 points from the previous year but down 2 points from normal. Rye planted reached 85 percent, down 4 points from the previous year and down 4 points from normal. Rye emerged reached 60 percent, down 6 points from the previous year and down 5 points from normal. Oats planted reached 55 percent, up 5 points from the previous year and up 5 points from normal.

Row Crops: Corn harvested reached 95 percent, down 2 points from the previous year but up 2 points from normal. Sorghum harvested reached 80 percent, up 1 point from the previous year and up 7 points from normal. Soybeans dropping leaves reached 95 percent, down 1 point from the previous year but up 5 points from normal. Soybeans harvested reached 55 percent, down 6 points from the previous year but unchanged from normal. Peanuts harvested reached 70 percent, up 4 points from the previous year and up 1 point from normal. Cotton harvested reached 45 percent, down 2 points from the previous year but up 6 points from normal.

Hay: The fifth cutting of alfalfa hay reached 55 percent, up 11 points from the previous year and up 5 points from the previous week. The fourth cutting of other hay reached 50 percent, up 29 points from the previous year and up 5 points from the previous week.

Pasture and Livestock: Pasture and range condition was rated at 82 percent poor to very poor. Livestock condition was rated at 73 percent fair to good.
