Volume 46, Number 17

Weekly Summary for June 4 – June 11

Issued June 12, 2023

Rainfall totals in Oklahoma averaged 0.80 inches. According to the June 6th US Drought Monitor Report, drought conditions were rated 65 percent abnormally dry to exceptional drought, up 22 points from last year. Additionally, 51 percent of the state was in the moderate drought to exceptional drought categories, up 16 points from the previous year. Statewide, temperatures averaged in the low-mid 70's. Topsoil moisture and subsoil moisture conditions were rated adequate to short. There were 5.4 days suitable for fieldwork.

Small Grains: Drier conditions allowed harvesting to progress. Winter wheat harvested reached 28 percent, down 2 points from the previous year but up 2 points from normal. Canola coloring reached 84 percent, down 2 points from the previous year but unchanged from normal. Canola harvested reached 23 percent, up 9 points from the previous year but unchanged from normal. Rye harvested reached 20 percent, down 3 points from the previous year and down 2 points from normal. Oats jointing reached 95 percent, up 1 point from the previous year and up 1 point from normal. Oats headed reached 77 percent, down 1 point from the previous year but unchanged from normal. Oats harvested reached 5 percent, up 2 points from the previous year.

Row Crops: Warmer temperatures allowed row crops to progress quickly. Corn planted reached 89 percent, unchanged from the previous year and unchanged from normal. Corn emerged reached 79 percent, unchanged from the previous year and unchanged from normal. Corn silking reached 5 percent, up 5 points from the previous year and up 3 points from normal. Sorghum planted reached 44 percent, up 1 point from the previous year but down 1 point from normal. Soybeans planted reached 54 percent, up 1 point from the previous year but down 3 points from normal. Soybeans emerged reached 21 percent, down 7 points from the previous year. Peanuts planted reached 84 percent, up 26 points from the previous year and up 15 points from normal. Cotton planted reached 66 percent, up 5 points from the previous year and up 7 points from normal.

Hay: The first cutting of alfalfa hay reached 72 percent, up 12 points from the previous year and unchanged from normal. The first cutting of other hay reached 50 percent, down 3 points from the previous year and down 5 points from normal.

Pasture and Livestock: Pasture and range condition was rated at 84 percent good to fair. Livestock condition was rated at 87 percent good to fair.
