Weekly Summary for June 17 - June 23

Issued June 24, 2024

Rainfall totals in Oklahoma averaged 0.59 inches. According to the June 18th US Drought Monitor Report, drought conditions were rated 37 percent abnormally dry to exceptional drought, down 36 points from last year. Additionally, 21 percent of the state was in the moderate drought to exceptional drought categories, down 21 points from the previous year. Statewide, temperatures averaged from the upper 70's to the lower 80's. Topsoil and Subsoil moisture conditions were rated adequate to short. There were 6.3 days suitable for fieldwork.

Small Grains: Small grain harvesting continues across the state with some crops wrapping up. Winter wheat harvested reached 95 percent, up 12 points from the previous week and up 30 points from normal. Canola harvested reached 95 percent, up 25 points from the previous week and up 37 points from normal. Rye harvested reached 92 percent, up 13 points from the previous week and up 37 points from normal. Oats harvested reached 47 percent, up 28 points from the previous week and up 25 points from normal.

Row Crops: Corn is progressing in central Oklahoma with some areas starting to dry in spots. Corn silking reached 31 percent, up 19 points from previous week and up 20 points from normal. Sorghum planted reached 91 percent, up 17 points from previous week and up 23 points from normal. Soybeans planted reached 83 percent, up 8 points from previous week and up 17 points from normal. Soybeans emerged reached 57 percent, up 32 points from previous week and up 16 points from normal. Upland Cotton planted reached 91 percent, up 21 points from previous week and up 3 points from normal. Upland Cotton squaring reached 5 percent, up 5 points from previous week but down 2 points from normal.

Hay: The first cutting of alfalfa hay reached 95 percent, up 13 points from previous week and up 7 points from normal. The second cutting of alfalfa hay reached 30 percent, up 16 points from previous week but down 8 points from normal. The first cutting of other hay reached 87 percent, up 9 points from previous week and up 16 points from normal. The second cutting of other hay reached 6 percent, up 6 points from previous week.

Pasture and Livestock: Pasture and range condition was rated at 80 percent good to fair. Livestock condition was rated at 85 percent good to fair.
