Crop Year 2014

Issued February 2014

Duster Remains Top Wheat Variety

Duster is the number one wheat variety in Oklahoma for the third year in a row. Endurance remains the second most commonly planted wheat variety in Oklahoma. This survey was conducted by the USDA-NASS Oklahoma Field Office and funded by the Oklahoma Wheat Commission in cooperation with the Department of Plant and Soil Sciences at Oklahoma State University. Results were based on reports from Oklahoma wheat growers.

¹ Prior to 2013, data were collected through mail and telephone responses. Due to agency program changes, the 2013 and subsequent data will be collected only through telephone interviews. ² The significant increase in the "Unknown" categories, especially the "Unknown Hard" category is attributed to the change in data collection methodology and an increase in sample size. * Less than 0.2 percent.

Winter Wheat Seeded Acres: by District, Oklahoma, Crop Year 2014
