

# Oklahoma Wheat Variety Report

Oklahoma Field Office · P.O. Box 528804, Oklahoma City, OK · (405) 415-8850 · nassrfo@spr.usda.gov  
Cooperating with the Oklahoma Department of Agriculture, Food and Forestry and Texas Department of Agriculture

## Top 3 Varieties Remain Unchanged in 2021

Gallagher is the number one wheat variety planted for the 2021 wheat crop in Oklahoma for the sixth season. Smith's Gold secured the second-place spot with an increase over 2020. Doublestop CL Plus holds on to the third spot. Wheat growers were surveyed by the USDA-NASS Oklahoma Field Office as part of the December Agricultural Survey and Crop Acreage and Production Survey. Funding was provided by the Oklahoma Wheat Commission in cooperation with the Department of Plant and Soil Sciences at Oklahoma State University. Survey results are provided in the following tables, with percent of acres planted for the 2021 crop year by variety and broken out by Agricultural Statistics District and Oklahoma Grain Shed. Data provided by Oklahoma wheat producers is the foundation of this report. The Oklahoma Field Office sincerely thanks all producers who cooperated in this important survey.
