

Agricultural Exports, 2008

By Julie A. Donahoe

Pennsylvania: U.S. agricultural exports from the Keystone State during the fiscal year (FY) October 2007-September 2008 were valued at \$1,910.9 million. This represents an increase of 30 percent from the \$1,471.3 million worth of commodities exported in FY 2007.

Pennsylvania exports ranked seventh in dairy products, unmanufactured tobacco and prepared fruits; and tenth in fats and oils; and fourteenth in live animals and meat.

United States: The value of agricultural exports for the U.S. during FY 2008 totaled \$115.5 billion, up 40 percent from FY 2007.

California was the leading export state in FY 2008. The total value of their exports was \$13.7 billion. Other leading states and their value were: Iowa, \$7.9 billion; Illinois, \$7.5 billion; Texas, \$6.0 billion; Nebraska and Kansas, \$5.9 billion; and Minnesota with \$5.5 billion.

Methodology: The Economic Research Service estimates State export shares based primarily on production share of the commodity.

The estimated export value for each State should not be interpreted as actual measurements of a State's exports. An agricultural commodity is likely to pass through several States before being exported, little data exists on shipments between States, and the State origin is lost as commodities move from farmgate to port.

U.S. and PA Agricultural Exports: Estimated Value By Commodity Group, Fiscal Years 2004-2008¹

Commodity	Shipped to Other Countries									
	Pennsylvania					United States
