

FAMILY FUN

Pennsylvania's Agriculture Activity Book

A Look at

Pennsylvania

Agriculture

Dear Boys and Girls,

We are grateful to our Pennsylvania farmers and their families for the food they provide and the wholesome milk we drink.

We hope you enjoy playing the games and coloring the pictures in this booklet.

How can I get more of this Activity Book?

Due to budget limitations, multiple copies of this Activity Book are not available from our office. The book is NOT copyrighted and you are welcome to make copies as needed. It is also available from our website at www.nass.usda.gov/pa where you can print selected pages or the entire book.

Pennsylvania Agriculture

What do you think of when you hear the word “agriculture”?

The image of crops growing in a field or a barnyard full of animals may come to mind. But even if you don't live on a farm, agriculture is all around you. By playing the games and coloring the pictures in this book, you will learn about crops and animals here in Pennsylvania.

There were **145,000 acres of winter wheat**, **33,000 acres of barley**, and **35,000 acres of oats** harvested in Pennsylvania in 2018.

GOT MILK?

Which milk cow is
different?

Pennsylvania dairy farms produce over **1.2 billion** gallons of milk every year. It takes 10-20 minutes to milk a cow. Most cows are milked twice a day. When milk leaves the cow, it is 101 degrees. It quickly is cooled to 40 degrees. On an average, most milk is sold at retail within 50 to 100 miles from the farm it was produced.

The NASS Mission is to provide timely, accurate and useful statistics in service to U.S. agriculture.

NASS conducts hundreds of surveys every year, and we prepare reports covering virtually every aspect of U.S. agriculture. Production and supplies of food and fiber, prices paid and received by farmers, farm labor and wages, farm finances, chemical use, and changes in the demographics of U.S. producers are only a few examples.

Our commitment to data confidentiality and security

NASS is very serious about its responsibility for the security and confidentiality of its data and has not had a data breach since before the Crop Reporting Board was established in 1905. With rapidly changing technologies, we conduct ongoing reviews of our processes to improve the security of our data. We are focused on establishing ongoing internal and external controls to assure continuous improvement and confidence in our procedures and technology into the future.

As required by Federal law, survey and census responses are completely confidential. We safeguard the privacy of all respondents, ensuring that no individual operation or producer can be identified. No identifying information will be shared with any other agency or entity for any reason.

Pennsylvania Agriculture is all around you. Everything you eat comes from agriculture. Agriculture is the production of food and fiber and it is caring for the land, air and water that we all enjoy so much! The seafood, meat and vegetables that you eat are all part of the agricultural world.

This activity booklet will help you better understand agriculture and just how important it is to us!

We are grateful to the Pennsylvania farmers and their families for completing our surveys throughout the year. This is how we gather our data about agriculture.

A lot of people and agencies learn from this data, like - - -

- the farmers themselves
- magazines, newspapers, radio
- farm businesses
- farm associations
- banks and lenders
- schools and universities
- farm cooperatives
- government agencies
- legislatures

We hope you have become more aware of agriculture in Pennsylvania and learned how important it is to the people who work hard to produce our food.
