Value of Production for Field and Miscellaneous Crops Down in 2015

The value of the United States field and miscellaneous crops is estimated at \$135.7 billion in 2015, a 9 percent decrease from 2014. Alabama production valued at \$955 million is down 6 percent from the previous year. Value of field and miscellaneous crops in Florida totals \$1.19 billion which is a slight increase from 2014. Georgia crop value is estimated at \$2.03 billion, a decrease of 1 percent from the previous year. Crop values in South Carolina total \$448 million, a 42 percent decrease from 2014. This is largely resulting from damage caused by flooding and continued wet field conditions in late 2015.

Value of Production by Crop — States and United States: 2014 and 2015
