This report contains the results of the Cash Rents survey, conducted by the Southern Plains Regional Field Office of USDA-NASS from February through July of 2019. We would like to thank the Texas farmers and ranchers whose response made this report possible. The table below includes estimates of state and district cash rental rates for irrigated cropland, non-irrigated cropland, and pasture based on the results of this survey. Results are compared to 2017 values as the Cash Rents survey was not conducted in 2018 for the Southern Plains Region.

County level estimates are accessible online at the following web address:
