NASS

WEST VIRGINIA
FARM STATISTICS
AT A GLANCE

Agency Overview

The USDA's National Agricultural Statistics Service (NASS) conducts hundreds of surveys every year and prepares reports covering virtually every aspect of U.S. agriculture. Production and supplies of food and fiber, prices paid and received by farmers, farm labor and wages, farm finances, chemical use, and changes in the demographics of U.S. producers are only a few examples.

NASS is committed to providing timely, accurate, and useful statistics in service to U.S. agriculture.

West Virginia

 Field Office

2016 West Virginia Agriculture

		<u>Rank in US</u>
