

WISCONSIN AGRICULTURAL LAND SALES 2022

SEPTEMBER 2023

In 2022, the average value of agricultural land sales in Wisconsin without buildings or improvements continuing in agricultural use averaged \$7,157 per acre, while land being diverted to other uses averaged \$24,485 per acre. The values for agricultural land being diverted to other uses came primarily from land being developed for commercial uses in southeastern Wisconsin. The average value of forest land continuing in forest land averaged \$2,880 per acre, while land being diverted to other uses was \$4,008 per acre.

Agricultural land sales figures in this report include only averages of arm’s length transactions classified as predominately for agricultural use reported to and reviewed by the Wisconsin Department of Revenue, Bureau of Equalization. Sales made under other than normal market conditions (such as family sales or foreclosures) are not included in this report. With each sale of a parcel of land, the buyer is required to file a Wisconsin Real Estate Transfer Return, documenting the parcel size, sale price, present use, and intended use of the property. State appraisers inspect the site and verify the transfer return. The sales data in this report are a summary of the Wisconsin Real Estate Transfer Returns. Specifics on land sales transactions within a certain county can be obtained by contacting the Department of Revenue or at www.revenue.wi.gov/retr.

AGRICULTURAL LAND SALES: LAND WITHOUT BUILDINGS AND OTHER IMPROVEMENTS: WISCONSIN, 2018-2022

Year	Agricultural land continuing in agricultural use			Agricultural land being diverted to other uses
