

Wisconsin Senate District Agricultural Statistics 2007

USDA, NASS, Wisconsin Field Office

Robert J. Battaglia, Director
Greg Bussler, Deputy Director

Issued cooperatively by:

Wisconsin Department of Agriculture,
Trade and Consumer Protection

Rod Nilsestuen, Secretary

United States Department of Agriculture
National Agricultural Statistics Service

Cynthia Clark, Administrator

Introduction

Overview

The 2007 Census of Agriculture was conducted by the USDA's National Agricultural Statistics Service to obtain agricultural statistics for each county, State, and the Nation. These data have been published in the Volume 1 Geographic Area Series. This publication includes information about Wisconsin's legislative Senate districts. Farms were assigned to districts using the U.S. Congressional District profile methodology, which was based on the principal county of operation.

Background

The census definition of a farm is any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the census year. The definition has changed nine times since it was established in 1850. The current definition was first used for the 1974 Census of Agriculture and has been used in each subsequent agriculture census. This definition is consistent with the definition used for current USDA surveys.

The calendar year 2007 was the reference period for the 2007 Census of Agriculture, except for the following which were measured as of December 31, 2007: livestock, poultry, and machinery and equipment inventories; market value of land and buildings; and grain storage capacity. All published tables, profiles, and complete information on current and previous censuses can be accessed on the Internet at

[www.agcensus.usda.gov/Publications/2007/Full_Report/Census by State/Wisconsin/index.asp](http://www.agcensus.usda.gov/Publications/2007/Full_Report/Census_by_State/Wisconsin/index.asp)

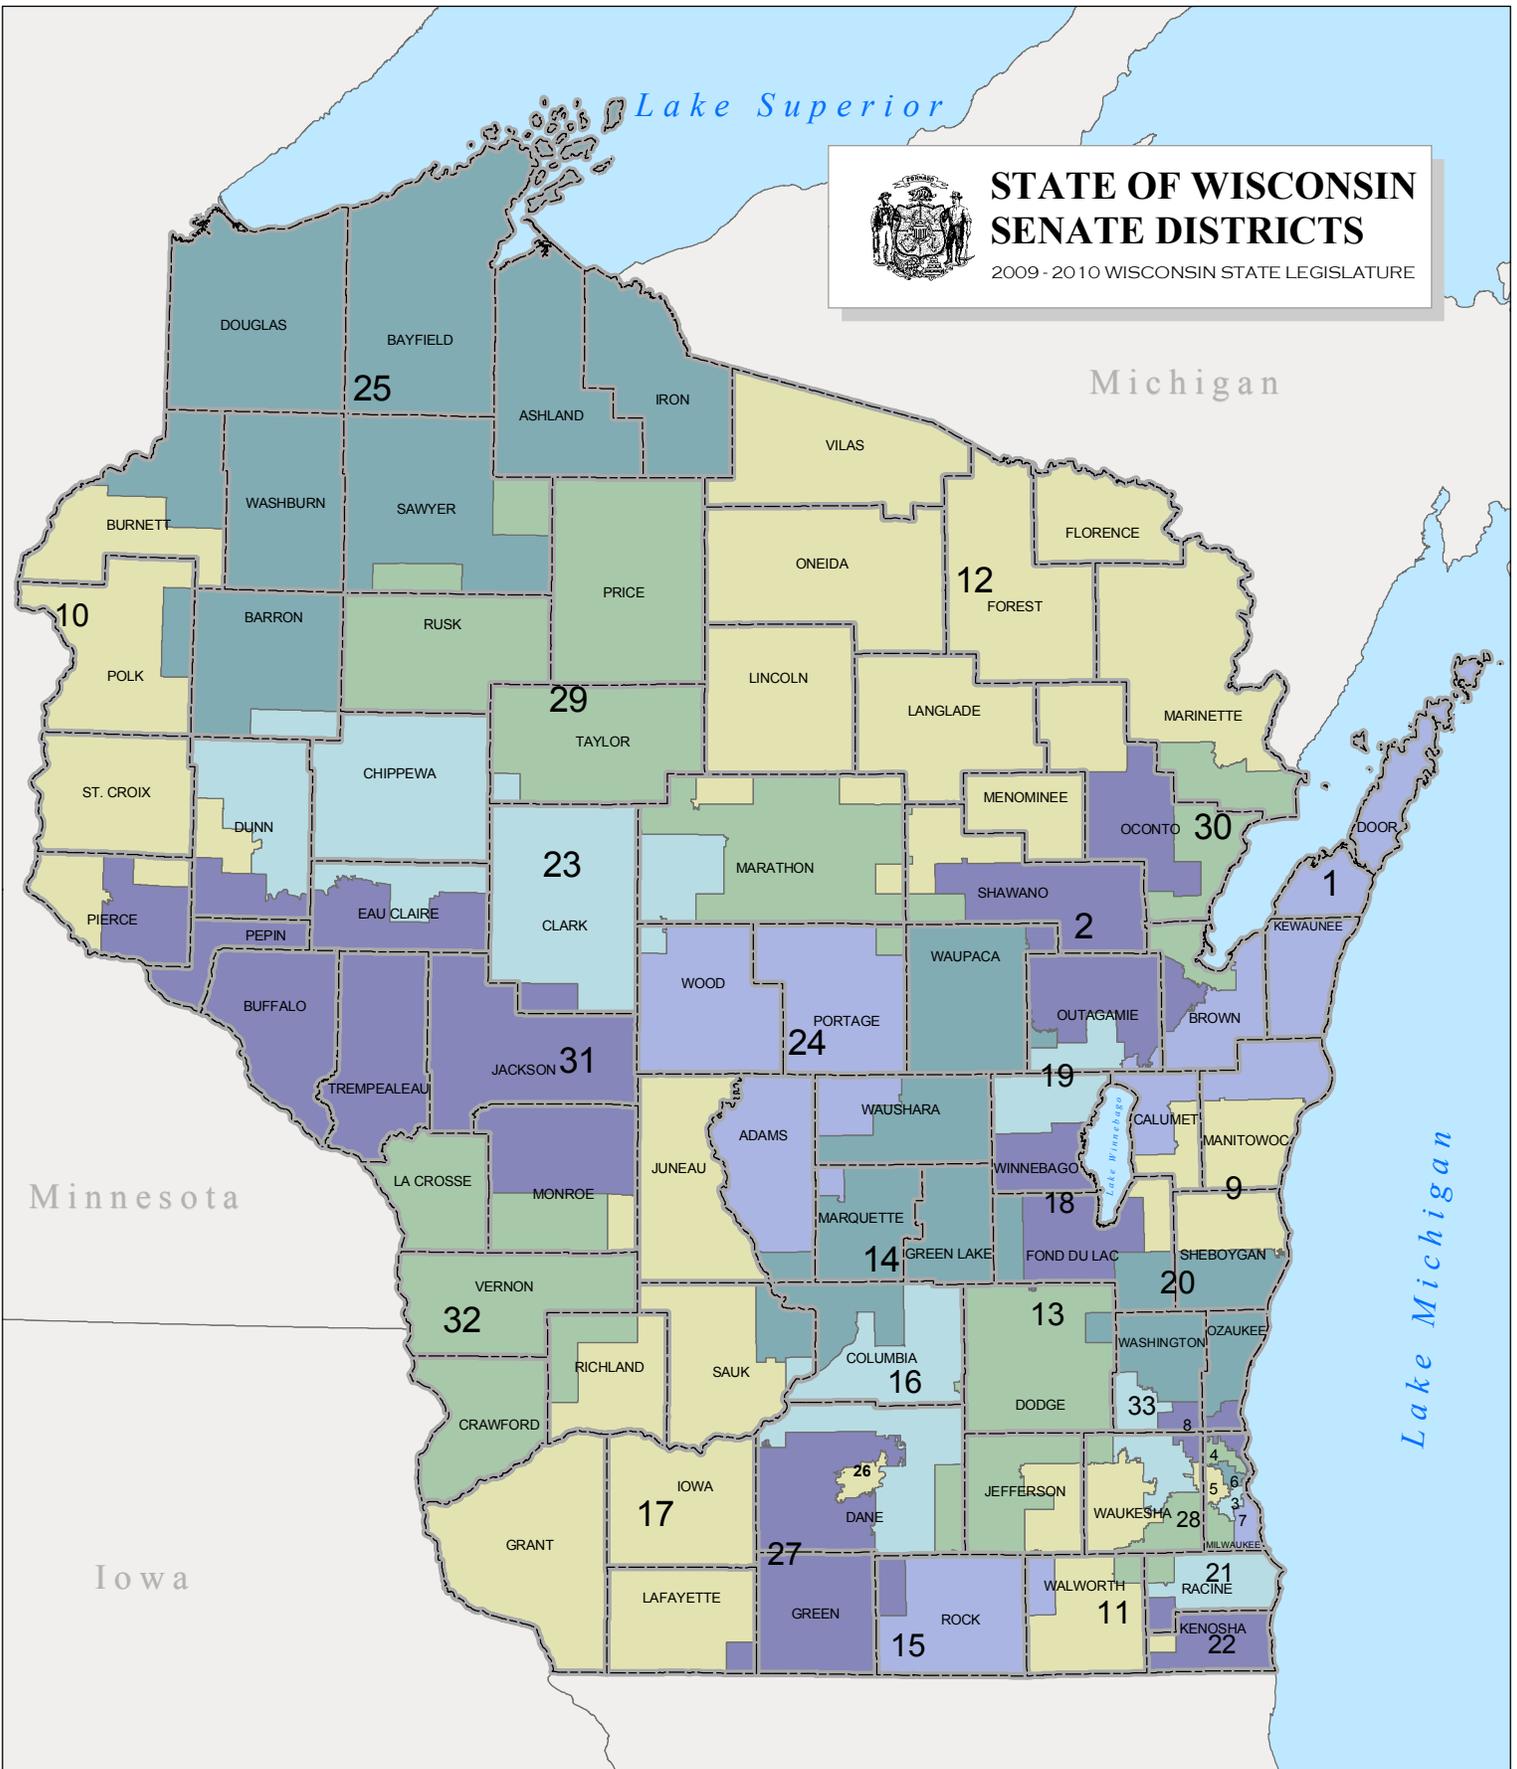

Contents

This publication contained profiles for Wisconsin legislative Senate districts. Each two-page profile contains farm characteristics, graphs of current data, rankings for the district within the State and selected economic and operator characteristics.

STATE OF WISCONSIN SENATE DISTRICTS

2009 - 2010 WISCONSIN STATE LEGISLATURE

Source: U.S. Census Bureau's TIGER 2000 data was used by local officials to create a statewide municipal ward dataset. These municipal wards were used to create new legislative and congressional districts of the state. The municipal ward information includes annexations up to August 1, 2001.

Districts as created by the Federal Court Redistricting Decision dated May 22, 2002. Districts are effective as of May 30, 2002.

Projection: All data is projected in Wisconsin Transverse Mercator, referenced to the North American Datum of 1983, 1991 adjustment.
