Dear Farmers, Ranchers, and Others Interested in Wyoming Agriculture,

The “2017 Wyoming Agricultural Statistics” bulletin is now online only. NASS published the first Wyoming cattle estimates in 1867, 23 years before Wyoming became a state. Happy 150th birthday!

I would like to thank all of the farmers, ranchers, agribusinesses, state and federal agricultural staff, and others in the Wyoming agricultural industry for their efforts and contributions to this publication. Whether you provided, collected, analyzed, or compiled this data, your efforts produce the best estimates of Wyoming agriculture possible.

Highlighted in photographs this year are a few of Wyoming’s cattle. Wyoming has dairy, feedlot, cow/calf, purebred, and rodeo stock cattle operations. Over half of all farms and ranches in Wyoming raise cattle and cattle accounted for 62% of Wyoming’s total cash receipts in 2016

This book is a compilation of the Wyoming data included in over 500 reports published each year by the National Agricultural Statistics Service (NASS). A calendar showing the report release dates can be found in the back of this publication and on the NASS website at: <http://www.nass.usda.gov/Publications/index.asp>

Wyoming farmers, ranchers, and agribusinesses voluntarily provide their individual information which is then summarized to the National, State, and County level. In addition to the information in this bulletin, a vast amount of detailed State and County information, both historic and current, about Wyoming agriculture is available from the multitude of annual reports we publish and the Census of Agriculture. For more information, please visit our website at: <http://www.nass.usda.gov>

Inside the back cover is the Wyoming Cropland Data Layer generated from our CropScape tool. This is a free, interactive tool that allows users to generate the acres of land use within in any geographic boundary. A similar online tool called VegScape will show the vegetative index, or “greenness”, in any region with comparisons to previous years. These two satellite tools bring the power of geospatial information to your local desktop computer or mobile phone with a simple internet connection.

Sincerely,

Rhonda Brandt
Wyoming State Statistician

WYOMING AGRICULTURE OVERVIEW - 2017

The value added to Wyoming's economy by the agricultural sector totaled \$1.72 billion in 2016, down 11% from 2015. Of that total, animals and animal products accounted for \$1.084 billion, crops totaled \$338 million, and farm-related income totaled \$300 million.

In 2016, 11,600 farms and ranches used 30.3 million acres to raise agricultural products in Wyoming. Farmer and rancher cash receipts totaled \$1.39 billion. Cattle and calves ranked as the largest livestock commodity raised in the state, followed by miscellaneous livestock (mostly horses and sheep), and hogs. Hay was the largest crop raised based on cash receipts, followed by sugarbeets, and barley.

Rank & Quantity Produced, Selected Commodities – Wyoming, Leading State, & United States: 2016

¹ All sheep includes new crop lambs. New crop lambs are lambs born after September 30, the previous year.

² Total for the year. Lamb crop defined as lambs marked, docked or branded.

³ Not strictly a lambing rate. Represents lamb crop expressed as a percent of ewes 1 year old & older on hand at the beginning of the year.

⁴ Data available 2018

⁵ Average value of all sheep, including lambs, at the beginning of the year.

Crop Progress and Condition Reports

Source: National Agricultural Statistics Service (NASS), Crop Progress Report

National Agricultural Statistics Service (NASS) Reports and Data

The NASS Internet homepage provides easy access to the wide range of reports, data and general information published throughout the year. All data in this bulletin is published at an earlier date and can be found most quickly via the Internet.

NASS Homepage – <http://www.nass.usda.gov>

Wyoming Homepage – [http://www.nass.usda.gov/Statistics by State/Wyoming/index.asp](http://www.nass.usda.gov/Statistics%20by%20State/Wyoming/index.asp)

Through a cooperative agreement with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 500 NASS reports annually are available free of charge. All NASS reports along with WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically seconds after release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on **Publications**. The next screen is the Reports Calendar where you can choose the year and month of interest.

Free E-Mail Subscriptions to NASS Reports

When a current report is released, it can be sent free of charge via e-mail to the list of subscribers for that report. From the NASS homepage, select **Publications**, then follow the instructions under **Receive Reports by Email**. The four report options available in Wyoming are:

Wyoming All Reports
Wyoming Crop-Weather
Wyoming Crops and Livestock
Wyoming Miscellaneous

There is no charge for e-mail subscriptions via Internet. You will receive a confirmation message to your email address you provide. You must verify that you subscribed to the releases before you start receiving the releases in your inbox. You may unsubscribe at any time by going to the **Subscription Page** and unchecking the reports you wish to discontinue.

Agricultural Statistics Data Base (Quick Stats)

Published **U.S., State, and County** information is also available in an online database **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The database can be accessed from the NASS homepage then selecting **Data and Statistics**. From there you can retrieve National, State, or County level data. The Census of Agriculture is also available in Quick Stats. The database allows custom extracts based on commodity, year, selected counties within a State, or all counties in one or more States. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State. Video tutorials and other information can be found by selecting **Help**.

"Wyoming Agricultural Statistics" - Annual Summary	Annual	August
Report Dates for Crops:		
Winter Wheat Seedings	Annual	January (9th-12th)
Prospective Plantings	Annual	March (28th-31st)
Acreage Planted	Annual	June (28th-30th)
Crop Production Forecasts	Monthly	May-November (9th-12th)
Dry Edible Bean Acreage by Class	Annual	August (9th-12th)
Crop Production Annual	Annual	January (9th-12th)
Crop Values	Annual	February (20th-25th)
Winter Wheat Varieties	Annual	February
Hay Stocks	Semi-Annual	January, May (9th-12th)
Report Dates for Livestock, Dairy, Poultry, and Livestock Products:		
Cattle Inventory and Calf Crop	Semi-Annual	January or February (5th Friday of year)
Sheep Inventory and Lamb Crop	Annual	January or February (5th Friday of year)
Sheep Shorn and Wool Production	Annual	January or February (5th Friday of year)
Sheep and Lamb Death Loss	Annual	February
Hog Inventory and Pig Crop	Annual	December
Livestock Slaughter	Monthly	20th-26th
Meat Animals - Production, Disposition, and Income	Annual	April (26th-30th)
Bee Colonies and Honey Production	Annual	March (26th-30th)
County Estimates:		
Barley	Annual	December
Hay - All, Alfalfa, and Other	Annual	April
Sugarbeets	Annual	July
Dry Beans	Annual	April
Livestock - Cattle and Breeding Sheep	Annual	April
Prices and Miscellaneous:		
Farm Labor	Semi-Annual	May and November (15th-21st)
Agricultural Prices	Monthly	28th-31st
Number of Farms and Land in Farms	Annual	February (10th-19th)
Farm Production Expenditures	Annual	August
Agricultural Land Values	Annual	August

¹ Same day news releases are issued for some reports. Separate reports funded by the Wyoming Business Council are also printed for Sheep Loss and Winter Wheat Varieties. The annual bulletin, "Wyoming Agricultural Statistics", is a summary of all data for the previous year. All reports are available on the Internet at: www.nass.usda.gov/wy

2016 Wyoming Cropland Data Layer

Land Cover Categories (by decreasing acreage)

CULTIVATED

- Other Hay/Non Alfalfa
- Alfalfa
- Fallow/Idle Cropland
- Winter Wheat
- Corn
- Barley
- Sugarbeets
- Dry Beans
- Other Small Grains
- Oats
- Other Crops

NON-CULTIVATED

- Shrubland
- Grassland/Pasture
- Forest
- Wetlands
- Barren
- Developed
- Water
- Perennial Ice/Snow
- County Boundary
- ASD Boundary

Produced by: U. S. Department of Agriculture, National Agricultural Statistics Service, Research and Development Division, Spatial Analysis Research Section.
 Cropland Data Layer CropScape Website:
<http://nassgeodata.gmu.edu/CropScape/>
 Data Sources: Landsat 8 OLI/TIRS, Deimos-1*, UK-DMC2* (*Courtesy of USDA Foreign Agricultural Service).
 Image Processing: Rulequest See5 and ERDAS Imagine.
 Ground Truth: The Farm Service Agency Common Land Unit for non-agricultural classes.
 Ancillary Data: NLCD Impervious Surface, NLCD Forest Canopy, National Elevation Dataset, NAS Crop Mask.
 Disclaimer: Small area crops may be less accurate, see CropScape metadata.
 Cartographic Generalization: Smaller categories combined with larger categories.
 Projection: UTM zone 13, WGS84 datum.
 Map Production: ESRI ArcGIS 10.3.
