National Agricultural Statistics Service (NASS) Reports and Data

The NASS Internet homepage provides easy access to the wide range of reports, data and general information published throughout the year. All data in this bulletin is published at an earlier date and can be found most quickly via the Internet.

NASS Homepage – <http://www.nass.usda.gov>
Wyoming Homepage – [http://www.nass.usda.gov/Statistics by State/Wyoming/index.php](http://www.nass.usda.gov/Statistics%20by%20State/Wyoming/index.php)

Through a cooperative agreement with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics, Statistics and Market Information System (ESMIS) on a web server. Over 500 NASS reports annually are available free of charge. All NASS reports along with WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically seconds after release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on **Publications**. The next screen is the Reports Calendar where you can choose the year and month of interest.

Free E-Mail Subscriptions to NASS Reports

When a current report is released, it can be sent free of charge via e-mail to the list of subscribers for that report. Agricultural Statistics Data Base (Quick Stats and Quick Stats Lite)

Published U.S., State, and County information is also available in an online database **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The data base can be accessed from the NASS homepage then selecting **Data and Statistics**. From there, you can retrieve National, State, or County level data using the full **Quick Stats** database or use one of the commonly used, pre-created queries using **Quick Stats Lite**. The Census of Agriculture is also available in Quick Stats. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State.
