WYOMING HISTORICAL AGRICULTURAL STATISTICS

Record Highs and Lows in Wyoming Agriculture	6-7
Crops - Historical Estimates - Acres, Yield, and Production	8-17
Winter Wheat	8
Spring Wheat	9
Barley	10
Oats	11
Dry Beans	12
Sugarbeets	13
Corn	14
Alfalfa Hay	15
Other Hay	16
All Hay	17
Livestock - Historical Estimates	18-20
All Cattle, All Cows, Calf Crop, and Cattle on Feed, January 1 Inventory Numbers	18
All Sheep and Lambs, Breeding Sheep, Lamb Crop, and Wool Production, January 1 Inventory Numbers	19
All Hogs and Pigs, Breeding Hogs, Market Hogs, and Pig Crop December 1 Inventory Numbers	20

GENERAL INFORMATION

Wyoming Agriculture, 2013	22
Wyoming's Rank in the Nation's Agriculture, 2013	23
Rank of Wyoming Counties	23
Number of Farms and Ranches	24
Value of Farmland, Pasture Rent per Acre, and Private Grazing Fees	25
Value Added to U.S. Economy by Agricultural Sector in Wyoming	26
Cash Receipts by Commodity	27
Farm and Ranch Production Expenses	28
Value of Production by Commodity	29
County Market Value of Livestock and Crop Products Sold	30

WEATHER DATA

Average Monthly and Annual Temperatures, 2013	32
Monthly and Annual Precipitation, 2013	33
Spring Freeze Hazard Table	34
Fall Freeze Hazard Table	35

Dear Reader,

The Wyoming Business Council Agribusiness Division is pleased to continue our partnership with Wyoming NASS to bring you this edition of *Wyoming Agricultural Statistics*. This has been a good year for agriculture, and we certainly hope the trend continues.

The primary function of the Agribusiness Division is to assist farmers, ranchers and agribusinesses develop and expand domestic and international marketing opportunities; enhance business development skills; and advance leadership skills and personal development. Specific Wyoming Business Council Agribusiness Division programs include:

- **Ag Business Development Program** helps increase financial sustainability of agribusinesses and recruits new agribusiness companies to Wyoming, and connects ag producers to consumers and businesses.
- **Beginning Producer Assistance** helps link veteran farmers and ranchers with those wanting to get a start in production agriculture.
- **Crop and Forage Promotion Program** assists crop producers identify alternative crops and marketing opportunities and promotes Wyoming's premium quality hay.
- **Farmers Market Program** promotes community farmers markets and provides assistance to new and existing market managers and agriculture producers.
- **Food Export Program** enhances marketing opportunities for Wyoming ag producers and food processors in the national and international marketplace.
- **Income Diversification Program** provides consulting to ag producers interested in diversifying their income to sustain their farming and ranching operations.
- **Livestock Genetics Program** assists seedstock producers promote their livestock in the domestic and international marketplace through consultation and one-on-one market plan development.
- **Livestock and Meat Marketing Program** assists producers in capturing additional value from their livestock and includes a source and age and natural verification program for livestock. A new program promotes commercial bred heifers and replacement heifers.
- **Wyoming L.E.A.D. Program** develops leadership skills and expands knowledge base for ag producers and agribusiness professionals interested in shaping Wyoming agriculture and rural communities.

The Agribusiness Division sponsors various educational programs, workshops and trade events for Wyoming ag producers throughout the year. In addition, the Division publishes a quarterly *AGtivities* newsletter and has an on-line agribusiness directory.

To learn more about Wyoming Business Council programs, go to our website at www.wyomingbusiness.org or find us on Facebook at www.facebook.com/wyomingagriculture.

We constantly strive to meet the needs of the producers in the state, so don't hesitate to contact me with your ideas of how we can assist you in "Growing Wyoming Agriculture."

With warm regards,

Cindy Garretson-Weibel, Agribusiness Director
Wyoming Business Council

"Growing Wyoming Agriculture"

United States Department of Agriculture
National Agricultural Statistics Service
Mountain Region
Wyoming Field Office

Dear Farmers, Ranchers, and Other Users of Wyoming Agricultural Data,

I am pleased to present the “2014 Wyoming Agricultural Statistics” bulletin. This publication contains both current and historical agricultural statistics. The National Agricultural Statistics Service (NASS) publishes over 500 reports nationwide throughout the calendar year. This book is a compilation of the Wyoming data included in all of those reports. A calendar showing report release dates can be found in the back of this book.

Wyoming farmers, ranchers, and agribusinesses voluntarily provide their individual information which is then summarized to the National, State and County levels. This publication would not be possible without their continued cooperation and support. I thank them all for sharing their valuable information with NASS, their fellow agricultural producers, and the general public. Not only do they grow our food, but they also play a vital role in helping NASS measure the food supply grown in the United States.

The free distribution of this publication would not be possible without funding from the Wyoming Business Council, Agribusiness Division under the direction of Cindy Garreston-Weibel. If you enjoy this publication, please let our great sponsors at the Wyoming Business Council know.

I would also like to thank our dedicated office staff and enumerators who talk to the farmers and ranchers all across Wyoming. In addition, the employees of USDA’s Farm Service Agency, Natural Resources Conservation Service, and the University of Wyoming County Extension staff provide valuable input to our programs that is greatly appreciated.

In addition to the information in this bulletin, a vast amount of detailed State and County information about Wyoming agriculture is available from the 2012 Census of Agriculture. Some highlights from the 2012 Census of Agriculture can be found in the back of the book.

For more information, please visit our website at: <http://www.nass.usda.gov/>

Sincerely,

Rhonda Brandt
State Statistician

**RECORD HIGHS AND LOWS IN WYOMING AGRICULTURE:
PRICES RECEIVED BY FARMERS AND RANCHERS**

WYOMING AGRICULTURE 2013

The value of the agricultural sector output in Wyoming totaled \$1.35 billion in 2013 and has been above the \$1 billion threshold since 2010. In 2013, 11,500 farms and ranches operated in Wyoming with a total land area of 30,200 million acres. Wyoming ranked 11th nationally in total land in farms and ranches and 1st in average size of farms and ranches. The cattle industry is by far the largest component of Wyoming agriculture accounting for over half of all cash receipts. Cattle also led the way in 2013 in terms of value of production at \$706 million. All livestock production was valued at \$833 million, up 10 percent from 2012.

Hay is by far the leading crop in Wyoming in terms of value of production totaling \$390 million in 2013. **Sugarbeets** had the next highest crop value in 2013 with an estimated \$53.4 million (based on 2013 production and 2012 prices, final 2013 prices pending). Ranking third was **barley** at \$38.2 million, followed by **corn** at \$35.8 million, **dry beans** at \$33.5 million, and **winter wheat** at \$19.9 million. All crop production totaled \$520 million in 2013, down 13 percent from 2012.

Cattle and calves inventory on January 1, 2014 totaled 1.27 million head with an inventory value of \$1.65 billion. Cattle inventory was down 2 percent from January 1, 2013. The January 1, 2013 inventory of **sheep and lambs** was down 5 percent from last year at 355,000 head, valued at \$64.6 million. The January 1, 2013 breeding sheep inventory was down 10,000 head and the market sheep and lamb inventory was also down 10,000 from the previous year. All **hogs and pigs** inventory increased 5 percent to 90,000 head on December 1, 2013 and was valued at \$14.0 million. Hogs kept for breeding remained unchanged from 2012, while market hogs increased 4,000 head.

**AVERAGE RATES FOR GRAZING CATTLE ON PRIVATE,
NON-IRRIGATED LAND: WYOMING AND SELECTED REGIONS, 2004-2013**

Year	Average Rates 1/				
	Wyoming			Eleven States Animal Unit 3/	Sixteen States Animal Unit 4/
	Animal Unit 2/	Cow-Calf	Per Head		
Dollars per month					
2004	13.90	16.00	14.30	13.30	14.30
2005	14.80	17.00	15.50	13.70	14.60
2006	15.10	17.30	15.80	13.90	15.20
2007	15.40	17.90	16.10	14.90	15.90
2008	15.70	18.40	16.40	15.00	16.20
2009	16.00	18.70	16.70	14.70	16.10
2010	16.60	19.30	17.20	15.00	16.70
2011	17.60	20.50	18.30	16.00	17.90
2012	18.70	21.80	19.40	17.00	18.80
2013	18.70	21.00	19.40	17.50	20.10

1/The average rates are estimates based on survey indications of monthly lease rates for private, non-irrigated grazing land from the January Cattle Survey.

2/Includes animal unit plus cow-calf rates. Cow-calf rate converted to animal unit (AUM) using (1 aum = cow-calf x 0.833).

3/Eleven states: AZ, CA, CO, ID, MT, NV, NM, OR, UT, WA, and WY.

4/Sixteen states: Previous eleven plus KS, NE, ND, OK, and SD.

Net Farm Income	4.9	134.7	31.6	160.7	386.6	356.4

1/Value of agricultural sector production is the gross value of the commodities and services produced within a year. Net value-added is the sector's contribution to the National economy and is the sum of the income from production earned by all factors-of-production. Net farm income is the farm operator's share of income from the sector's production activities. The concept presented is consistent with that employed by the Organization for Economic Cooperation and Development.

2/A positive value of inventory change represents current year production not sold by December 31. A negative value is an offset to production from prior years included in current year sales.

LIVESTOCK

The number of **cattle and calves** on Wyoming farms and ranches on January 1, 2014, was 1,270,000 head, 2 percent below last year. The inventory of beef cows was unchanged at 694,000 head. Beef cow heifers kept for replacement increased 2 percent to 175,000 head. The remaining total beef cattle inventory, accounted for by other heifers, steers, bulls and all calves (under 500 pounds), decreased by 6 percent from the previous year. The 2013 calf crop, at 640,000 calves, was down 3 percent compared to 2012. The 2013 U.S. market year average price per cwt. received for steers & heifers was \$126.00, up from 2012. The 2013 market year average price of calves was \$181.00, up by 5 percent for the U.S. from 2012.

The number of **milk cows** in Wyoming herds during 2013 averaged 6,000 head, unchanged from a year ago. Wyoming milk cow price per head during 2013 averaged \$1,440.00, compared to \$1,470.00 a year ago.

The number of **hogs and pigs** in Wyoming on December 1, 2013 was 90,000 head, up 4,000 head from a year earlier. Breeding inventory remained at 35,000 head. Market hogs and pigs increased 4,000 head to 55,000 head. The 2013 pig crop totaled 762,000 pigs, down 1 percent from 2012. The 2013 U.S. market year average price per cwt. for all hogs was \$67.20, up \$3.00 per cwt. from the previous year.

Sheep and lamb inventory in Wyoming on January 1, 2014 totaled 355,000 head, down 20,000 head from the previous year. Total breeding stock inventory was down 10,000 head from the previous year to 265,000. The 2013 lamb crop totaled 225,000 lambs, down 10,000 head from 2012. In 2013, 100 lambs were saved per every 100 ewes, down 9 from a year earlier. The market year average price received, for sheep and lambs in 2012 was \$186.00, \$53.00 below the previous year's price, but \$9.00 over the U.S. average.

Wyoming sheep producers lost 17,300 sheep and lambs to predators in 2013, down 6 percent from 2012. Coyotes were again the biggest predator taking 61 percent of the total predator losses and 29 percent of all losses. Losses to weather, disease, and other non-predator causes decreased by 5,800 head to 18,700. Sheep producers lost an estimated \$5.7 million due to sheep and lamb deaths in 2013, down from \$7.9 million the previous year.

Wyoming sheep and lambs produced 2.50 million pounds of wool in 2013, down 4 percent from 2012. The 2013 weight per fleece was down 8 percent at 8.6 pounds. The wool price per pound averaged \$2.13, up from \$2.10 in 2012.

The number of **chickens** in Wyoming flocks on December 1, 2013 was not published separately in order to avoid disclosing any individual operation. An average of 11,000 layers produced 2.4 million eggs in the 12-month period ending December 1, 2013.

SHEEP LOSSES TO ALL CAUSES - 2013

TOTAL DEATH LOSS UP: Wyoming sheep and lamb producers lost an estimated 43,000 head of sheep and lambs to predators, weather, lambing problems, disease and other causes in 2012 according to our annual survey. Total losses were down 12,000 head from the previous year. Predators accounted for 43 percent of the losses. The 2012 lamb crop totaled 240,000 lambs marked, docked, or branded which was up 9 percent from 2011. Adding in the lambs lost before docking results in a potential lamb supply of 259,000 head. Of these, 11,000 or 58 percent were lost to various non-predator causes, compared to 77 percent in 2011.

PREDATOR LOSSES UP: Wyoming sheep producers lost 18,500 sheep and lambs to predators in 2012, up 6 percent from 2011. Coyotes were again the biggest predator taking 64 percent of the total predator losses and 27 percent of all losses. Losses to weather, disease and other non-predator causes decreased by 13,000 head to 24,500.

NON-PREDATOR LAMB LOSSES UP: Sheep producers lost 33,000 lambs before or after docking in 2012, down 11,000 head from 2011. Losses to predators accounted for 48 percent of the total, up 500 head from 2011. Losses of lambs to weather, disease and other non-predator causes were down 11,500 head to 17,100.

SHEEP LOSSES DOWN: Sheep losses in Wyoming during 2012 totaled 10,000 head, down 1,000 head from 2011. Predator losses were up 500 head at 2,600 and non-predator losses were down 1,500 head to 7,400.

VALUE OF LOSSES HIGHER: Sheep producers lost an estimated \$7.9 million due to sheep and lamb deaths in 2012, down from \$10.2 million the previous year. Predation accounted for \$3.3 million or 42 percent of the total.

Sheep Losses All Predator, Non-Predator Causes Wyoming

Wyoming Sheep & Lamb Losses 2013

Wyoming sheep and lamb producers lost an estimated 36,000 head of sheep and lambs to predators, weather, lambing problems, disease, and other causes in 2013 according to our annual survey. Total losses were down 7,000 head from the previous year. Predators accounted for 48 percent of the losses. The 2013 lamb crop totaled 225,000 lambs marked, docked, or branded which was down 4 percent from 2012. Adding in the lambs lost before docking results in a potential lamb supply of 242,000 head. Of these, 9,700, or 57 percent, were lost to various non-predator causes, compared to 58 percent in 2012.

These data are based on reports from producers on our annual January Sheep and Goat Survey. We thank all Wyoming ranchers and farmers for their help with this survey. We also thank the Wyoming Business Council, Agribusiness Division who funds this report as part of the annual agreement with our agency to provide statistics for Wyoming agriculture.

If you have any question about this report please call us toll-free at 1-800-892-1660.

HIGHLIGHTS

Wyoming sheep producers lost 17,300 sheep and lambs to predators in 2013, down 6 percent from 2012. Coyotes were again the biggest predator taking 61 percent of the total predator losses and 29 percent of all losses. Losses to weather, disease, and other non-predator causes decreased by 5,800 head to 18,700.

Sheep producers lost 27,000 lambs before or after docking in 2013, down 6,000 head from 2012. Losses to predators accounted for 53 percent of the total, down 1,500 head from 2012. Losses of lambs to weather, disease, and other non-predator causes were down 4,500 head to 12,600.

Sheep losses in Wyoming during 2013 totaled 9,000 head, down 1,000 head from 2012. Predator losses were up 300 head at 2,900 and non-predator losses were down 1,300 head to 6,100.

Sheep producers lost an estimated \$5.7 million due to sheep and lamb deaths in 2013, down from \$7.9 million the previous year. Predation accounted for \$2.7 million or 47 percent of the total.

2013 CROP YEAR IN REVIEW

Wyoming started 2013 with dry conditions and below normal snow pack in many areas. January topsoil moisture supplies were 55% very short to short and snowpack was at 76% of normal compared with 112% the year before. February brought little moisture and below normal temperatures. Hay and roughage shortages and stock water supplies became worrisome in March as dry conditions continued. Snow pack remained below average. The winter wheat crop struggled as only 32% of the crop was in good to excellent condition.

April showers and snow improved soil moisture supplies, but slowed sugarbeet, oat and spring wheat plantings. Planting of other crops progressed near the normal pace. Winter wheat condition improved only slightly to 38% good to excellent and growth remained behind average. The planting pace for all crops, except sugarbeets, increased in May as warmer temperatures allowed fieldwork. The irrigation water supply outlook improved as moisture fell in most areas of the state.

In early June, hay was in mostly good to excellent condition, while winter wheat condition remained at only 40% good to excellent. Cool temperatures slowed crop emergence. By early July, the first cutting of alfalfa was over half way finished, ahead of the average pace. Spring planted crops were in mostly good to excellent condition, but winter wheat showed no improvement. Winter wheat harvest started later than normal in mid-July and progressed behind the normal pace until complete in late-August. Hay harvest progressed on schedule with many producers getting a third cutting of alfalfa.

Heavy snows and cold temperatures in September brought an abrupt halt to the growing season but provided much-needed moisture. Winter wheat plantings were slowed, but benefited from the much-needed moisture. The precipitation continued to fall in October and temperatures were well below normal. Corn for grain and sugarbeet harvest lagged the normal pace as fields were too wet to harvest. Harvest for the remaining crops progressed near their normal pace.

The sugarbeet harvest was finished but corn for grain harvested was only 71% complete by the end of November. Winter wheat condition rated 79% good to excellent going into dormancy. Snowpack was at 145% and topsoil moisture levels were rated 85% adequate, quite a turnaround from the beginning of 2013.

WINTER WHEAT production in 2013 decreased 4 percent from 2012. Harvested acreage was the same as 2012 but the average yield per acre decreased 1 bushel to 24 bushels per acre. The average yield in 2012 was 25 bushels per acre.

BARLEY production in 2013 was up 7 percent from last year. Harvested acreage was up 4,000 acres and yield averaged was the same as 2012 at 89.0 bushels per acre.

OAT production in 2013 was 570,000 bushels, up 164 percent from 2012. Grain was harvested from 10,000 acres. Compared to last year, the average yield was up by 21 bushels per acre at 57 bushels per acre.

CORN FOR GRAIN production was up 1 percent the harvested acreage increased by 8,000 acres compared to last year. Yields averaged 127.0 bushels per acre, down 15 bushels from 2012.

CORN FOR SILAGE production was down 3 percent. Silage was harvested from 31,000 acres, down 4,000 acres from 2012. The average yield was 24.0 tons per acre, up two tons from 2012.

DRY BEAN production in 2013 decreased 4 percent from 2012. Acreage harvested was down 5,000 acres. The average yield, at 2,620 pounds per acre, was up 220 pounds from last year.

SUGARBEET production was down 2 percent from 2012. Acreage harvested decreased 1,600 acres compared to last year. The average yield per acre was up 3 percent at 29.5 tons per acre.

ALFALFA HAY production in 2013 increased 8 percent from 2012 to 1,44 million tons. Acreage cut for alfalfa was down at 450,000 acres while average yields rose from 2.80 tons to 3.2 tons per acre. Production of **ALL OTHER HAY** was up 16 percent from 2012. Acreage cut was up 140,000 acres and the average yield decreased slightly to 1.20 tons per acre. **ALL HAY** production was up 10 percent from 2012 and down 11 percent from 2011.

ALFALFA SEED production in 2012 totaled 3,681 million pounds of seed from 7,464 acres according to the Wyoming Seed Certification Service. Production decreased by 9 percent from the 2012 crop.

Compliments of Wyoming Livestock Roundup

Cattle Country Video Auction

PRICES

The U.S. **Price Index for Agricultural Production** in 2013 fluctuated throughout the year. The index peaked at 111 (2011 Base=100) in January. The low for the year was 99 in October and November. The **Livestock Production Index** had more highs during the end of the year and hit 113 twice in November and December. The Livestock index remained fairly consistent throughout the year with a low of 107 twice. The **Crop Production Index** began the year with higher numbers, 112 in January and March and remained below 100 the last quarter, reaching a low of 89 in November. The Food Commodities Index, like the Livestock Index, was also consistent with a high of 111 in January and included four months at 109 and four months at 106.

Beef Cattle prices started 2013 slightly above last year's ending price of \$124.00, reaching a low of \$120.00 in July, and ended the year at \$130.00. The average price for the year was \$125.00 per cwt., up \$4.00 from 2012 and the highest on record.

Combined **Steer and Heifer** prices started out at \$127.00 per cwt. and ended the year at \$132.00, the highest on record.

Calf prices started out 2013 at \$168 per cwt. in January and ended the year at \$197. The monthly high for the year was \$200 in September. The average price for the year was \$181, up significantly from previous years.

Wool prices averaged \$1.45 per pound in 2013, down 7 cents from 2012. The marketing year average was \$1.67 in 2011.

Hog prices averaged \$67.20 per cwt. in 2013, up \$3 from 2012. The marketing year average was \$64.20 in 2012 and \$65.30 in 2011.

Milk prices began 2013 at \$19.90 per cwt in January and ended the year up at \$22.00. Compared to the 2011 average the price was up slightly to end the year.

The All Hay price for 2013 started the year at \$188 per ton, \$1 lower than the price in December and \$9 higher than the market year average (MYA) of \$179 per ton. The all hay 2013 MYA is \$1 lower than the 2011 average of \$178.00 per ton and \$8 less than the 2012 MYA. The 2013 MYA price for **alfalfa**, at \$197 per ton, was down \$13.00 from the 2012 average. The

MYA price for **other hay** was \$139 per ton, down \$3 from 2012 and up \$7 from 2011.

Wheat prices during the 2013 crop marketing year started out strong at \$8.12 per bushel and then declined by \$1.39 per bushel to end the year. The MYA price was \$6.87 per bushel in 2013, \$7.77 in 2012, and \$7.24 in 2011.

Corn prices started out stronger during the first part of the 2013 crop marketing year, reaching over \$7.00 per bushel in February and March but then fell sharply to end the year at \$4.41 per bushel. The MYA for 2013 was down \$2.39 per bushel from 2012 to \$4.50 per bushel.

Feed Barley prices trended downward in 2013 with the average at \$4.28 per bushel compared to the 2012 average of \$5.62, and also down from the 2011 average of \$4.91.

Oats MYA price for 2013 was \$3.75 per bushel, down 14 cents from 2012.

Dry Bean prices fluctuated less in 2013, compared to 2012, with the average price ending up higher at \$40.60 per cwt in 2013. MYA in 2012 was \$38 and in 2011 \$42.10.

The 2013 **Index of Prices Paid for Commodities and Services, Interest, Taxes, and Farm Wage Rates (PPITW)** for the U.S. came in at 106 percent of the 2011 average. The index is up 1 point from December but unchanged from January 2013.

2012 CENSUS OF AGRICULTURE

Wyoming Highlights

In 2013, the National Agricultural Statistics Service published the results of the 2012 Census of Agriculture in addition to the crop, livestock, and economic data published from our annual surveys. The Census of Agriculture is conducted every five years and is the most complete source of agriculture data at the National, State, and County level. These two pages show a small overview of the type of data found in the Census of Agriculture for Wyoming. The type of data published includes operator characteristics, land tenure, operation structure, commodity information, economic data, and much more.

To find more information, go to: www.agcensus.usda.gov

	2012	2007	% change
Number of Farms	11,736	11,069	+ 6
Land in Farms	30,363,641 acres	30,169,526 acres	+ 1
Average Size of Farm	2,587 acres	2,726 acres	- 5
Market Value of Products Sold	\$1,689,416,000	\$1,157,535,000	+ 46
Crop Sales \$438,958,000 (26 percent)			
Livestock Sales \$1,250,458,000 (74 percent)			
Average Per Farm	\$143,952	\$104,575	+ 38
Government Payments	\$28,146,000	\$28,157,000	0
Average Per Farm Receiving Payments	\$10,027	\$10,092	- 1

Economic Characteristics	Quantity
Farms by value of sales:	
Less than \$1,000	3,466
\$1,000 to \$2,499	834
\$2,500 to \$4,999	799
\$5,000 to \$9,999	915
\$10,000 to \$19,999	850
\$20,000 to \$24,999	311
\$25,000 to \$39,999	592
\$40,000 to \$49,999	283
\$50,000 to \$99,999	923
\$100,000 to \$249,999	1,307
\$250,000 to \$499,999	808
\$500,000 or more	648
Total farm production expenses (\$1,000)	1,552,595
Average per farm (\$)	132,293
Net cash farm income of operation (\$1,000)	235,988
Average per farm (\$)	20,108

Operator Characteristics	Quantity
Principal operators by primary occupation:	
Farming	5,845
Other	5,891
Principal operators by sex:	
Male	10,118
Female	1,618
Average age of principal operator (years)	58.2
All operators by race ² :	
American Indian or Alaska Native	243
Asian	25
Black or African American	8
Native Hawaiian or Other Pacific Islander	8
White	18,779
More than one race	102
All operators of Spanish, Hispanic, or Latino Origin ²	387

See "Census of Agriculture, Volume 1, Geographic Area Series" for complete footnotes, explanations, definitions, and methodology.

- Represents zero.

¹ Universe is number of states in U.S. with item. ² Data were collected for a maximum of three operators per farm.

Electronic Dissemination of Data from National Agricultural Statistics Service (NASS)

NASS has a homepage on the World Wide Web that provides easy access to the wide range of information and data produced. Through the homepage, you can obtain copies of all reports produced by NASS plus have access to many other options.

NASS Homepage – <http://www.nass.usda.gov>

Wyoming Homepage – http://www.nass.usda.gov/statistics/by_state/wyoming

Through a cooperative agreement with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics and Statistics System on a web server. Over 400 reports annually are available free of charge. All NASS reports and WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically within minutes of release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on **Publications**. At the next screen is the Reports Calendar where you can choose the year and month.

Free E-Mail Subscriptions to NASS Reports

The Mann Library provides a **FREE** e-mail service for NASS reports. When a current report is released, it is sent via e-mail to the list of subscribers for that report. From the NASS homepage at <http://www.nass.usda.gov>, select **Publications**. From the **Publications** page, on the right side is a box titled "Receive NASS Updates." Clicking on the "Receive reports by E-Mail" for either National or State reports will direct you through the process. The four report options available in Wyoming are:

Wyoming All Reports
Wyoming Crop-Weather
Wyoming Crops and Livestock
Wyoming Miscellaneous

There is no charge for e-mail subscriptions via Internet. You will receive a confirmation message to your email address you provide, you must verify that you subscribed to the releases before you start receiving the releases in your inbox. You may unsubscribe at any time by going to the **Subscription Page** and unchecking the reports you wish to discontinue.

Agricultural Statistics Data Base (Quick Stats)

U.S. and **State** information, published in NASS national reports, is available in an online database via the Internet **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The database can be accessed from the NASS homepage at: <http://www.nass.usda.gov>. The basic options are in the middle of the screen on the Home Page. Clicking on the "more" button will take you to the main menu for Quick Stats. From there you can retrieve State or County level data. The 2007 Census of Agriculture is also available.

County level data are also available via Quick Stats. The data include the total crops for each county and breakouts for irrigated and non-irrigated practices for many crops, for selected States. The database allows custom extracts based on commodity, year, selected counties within a State, or all counties in one or more States. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State. The download data files contain planted and harvested area, yield per acre, and production. Livestock county data is also available for selected States.
