NASS is collecting information on the costs and returns for operating a farm or ranch in the United States and it is essential that we collect this information directly from the producers to make the information as accurate as possible.

The information you provide will be used for statistical purposes only. Your responses will be kept confidential and any person who willfully discloses ANY identifiable information about you or your operation is subject to a jail term, a fine, or both. This survey is conducted in accordance with the Confidential Information Protection and Statistical Efficiency Act of 2018, Title III of Pub. L. No. 115-435, codified in 44 U.S.C. Ch. 35 and other applicable Federal laws. For more information on how we protect your information please visit: <https://www.nass.usda.gov/confidentiality>. Response is **voluntary**.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0535-0218. The time required to complete this information collection is estimated to average 100 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

## SECTION V MACHINERY AND EQUIPMENT

Using the machinery and equipment lists below, report the machinery and equipment used on or at the DAIRY Enterprise. If the operation uses all of the space provided in the table below and there is not enough space for all the machinery or equipment, list those that are most important to the DAIRY operation, are used most often at or on the DAIRY operation, or most expensive.

If the operation had more than one of the same machine or piece of equipment, they can be listed on the same line by coding column 3 with the number of the same items.

**Exclude** machinery and equipment used to grow crops on the operation even if the crops were fed to the dairy cattle.
