1997 Census of Agriculture Data Products

Every five years, the census of agriculture snaps a picture of America's farm and ranch industry at the county, state, and national levels. As the prime source of consistent, comparable, detailed data about production agriculture, census data provide a basis for determining both the present state of agriculture and trends over time. All listed products are available on the Internet at <http://www.usda.gov/nass/census>. CD-ROM's and/or printed reports are available upon request. Charges are yet to be determined unless otherwise noted. For more information on how to order printed reports or CD-ROMs contact the North Dakota Agricultural Statistics Service.

◆ Volume 1, Geographic Area Series

State and County Data. Separate state reports display statistics for the entire State and every county. The United States Summary provides National data and selected data for each State.

The 1997 Census of Agriculture Geographic Area Series products, including manipulable data files and Adobe Acrobat (.PDF) files of the printed reports, are currently available on the Internet.

◆ Volume 2, Subject Series
