

### TROUT

The value of trout sold in Connecticut, Maine, and Massachusetts totaled \$848,000 in 2001, a 14 percent reduction in value from the previous year due largely to fewer pounds sold. On January 1, 2002, in the three New England States, there were 19 producers selling trout and

17 hatcheries distributing fish for restoration, conservation or recreational purposes. State hatcheries reported a total of 3.6 million fish distributed in 2001, compared with 3.3 million fish distributed a year earlier.
